Program Delivery • PMO Governance • Core Banking Transformation • Strategic Execution

18+	\$3M+	80+	15–20	14	>90%
Years BFSI	Portfolio Value	Team Size	Projects Led	Go-Live Projects	CSAT

EXECUTIVE SUMMARY

Senior BFSI delivery executive with 18+ years of end-to-end program ownership across Core Banking, Payments, Lending, and Digital Transformation. Proven record of building delivery organizations of 80+ professionals, managing \$3M+ portfolios simultaneously, and orchestrating multi-country go-lives across 14 nations. Combines deep domain expertise with C-suite stakeholder management, PMO design, and commercial acumen.

Now seeking a strategic leadership mandate — Delivery Head, Vertical Head, PMO Head, or AVP/Director — to drive scaled, profitable BFSI program delivery and elevate organizational delivery maturity.

CORE COMPETENCIES

Leadership & Governance ▶ Delivery Head & PMO Setup ▶ Programme & Portfolio Management ▶ CXO Stakeholder Engagement (SteerCo) ▶ Governance Frameworks & RACI ▶ KPI Definition & Executive Reporting ▶ Pre-Sales, RFP & Solutioning	BFSI Domain Depth ▶ Core Banking: T24, Flexcube 14.8, Universal Banking Essence ▶ Payments: ISO 8583 / ISO 20022 / SWIFT ▶ Retail, Islamic & Trade Finance ▶ Credit Decisioning: Experian PCSM / SDS ▶ API-led Integration & Digital Banking ▶ CRM–LOS–CBS Ecosystem Delivery	Delivery Excellence ▶ Different Geo-Location -Go Live Rollout ▶ UAT Governance & Release Readiness ▶ Testing Centre of Excellence (TCoE) ▶ Risk Mitigation & Escalation Management ▶ Agile, Scrum, DevOps, CI/CD ▶ Regulatory-Compliant Delivery
---	--	---

SIGNATURE ACHIEVEMENTS

- **Scaled Delivery Organization:** Built and scaled a delivery organization of 80+ professionals spanning 15–20 concurrent BFSI programs, maintaining CSAT above 90% consistently across all client engagements.
- **PMO Architecture:** Architected enterprise-grade PMO from ground up — governance model, RACI, milestone tracking, KPI dashboards, SteerCo reporting — enabling predictable, audit-ready program delivery at scale.
- **Testing Centre of Excellence:** Established Testing Centre of Excellence (TCoE), institutionalizing test governance, automation frameworks, and quality gates — achieving zero critical defect escape rate across all production go-lives.
- **Multiple Go-Live:** Directed multi-country Core Banking go-live across 5 nations for Standard Bank of Africa — coordinating deployment sequencing, production readiness, hyper care, and regulatory compliance across diverse geographies.
- **Digital Transformation (CIB Egypt):** Led end-to-end digital transformation for CIB Egypt (Experian PCSM/SDS): Customer 360° credit dashboard, decision automation, and CRM integration — transforming lending operations across cards, loans, and mortgages.
- **Active Multi-Client Portfolio:** Currently owning a multi-client portfolio (Amana Bank, Lesotho Post Bank, UCS SACCO) — full lifecycle FCUBS & iCust delivery: infrastructure, parameterization, Multi interface integrations, UAT, and go-live readiness.
- **CXO Engagement:** Designed and sustained CXO engagement cadence — SteerCo forums, weekly governance, escalation management — sustaining alignment through complex multi-year, multi-vendor programs with >90% CSAT.

PROFESSIONAL EXPERIENCE

Senior Project Manager — Portfolio Lead

Client: *Amana Bank* | *Lesotho Post Bank* | *UCS SACCO*

Rumango Software and Consulting | Bangalore

Jan 2026 – Present

Lead concurrent FCUBS & iCust banking implementation programs across three client organizations, owning full lifecycle from onboarding through production go-live and post-go-live hyper care.

- Directed client onboarding, kick-off, product walkthroughs, and functional/technical architecture alignment across 3 simultaneous banking transformation programs.
- Established delivery governance engine — milestones, Gantt planning, variance tracking, risk register, and executive SteerCo reporting across all phases and clients.
- Manages full FCUBS implementation: infrastructure provisioning, environment validation, module installation, parameterization across Retail, Islamic & Trade Finance products.
- Orchestrates 5-interface integration delivery (Sybrin, ATM Switch, AML, Currency Upload, SMS Gateway) — interface study, development, SIT management, and defect resolution.

Senior Manager — Delivery & Testing

Client: *Commercial International Bank (CIB), Egypt*

Nov 2017 – Dec 2025

Digitide Solution Ltd (QuessGTS) | Bangalore

Led delivery governance, testing operations, and quality assurance for large-scale BFSI digital transformation programs, managing 80+ member teams and \$3M client engagements across 8 years.

- Built, led, and mentored cross-functional teams of 80+ across concurrent BFSI programs spanning core banking, payments, digital channels, and credit decisioning platforms.
- Established Testing Centre of Excellence (TCoE) — governance model, automation strategy, ALM/JIRA tooling, and CXO-level quality reporting — institutionalized across the enterprise.
- Implemented Experian PCSM & Strategy Design Studio for CIB Egypt: credit scoring, risk evaluation, decision automation, and Customer 360° lending dashboard across cards, loans, and mortgages.
- Integrated Experian decisioning with Salesforce CRM, enhancing customer profiling, credit risk assessment, and lender productivity across the retail credit portfolio.
- Drove UAT governance, regulatory validation, data controls, and release readiness — achieving zero critical defect escape rate on all production go-lives over the 8-year tenure.
- Owned multi-vendor coordination across OEM partners, fintech vendors, and internal teams — managing SLAs, escalations, and delivery accountability at the enterprise level.

Techno-Functional Consultant — Payments & Core Banking

Client: *National Bank of Kenya | Co-operative Bank of Kenya*

Nov 2012 – Oct 2017

Finastra Software Solutions (India) Pvt Ltd | Bangalore

- Deep expertise in ATM switching (ISO 8583), ISO 20022 payments, teller systems, and Finastra core banking — supporting national-scale banking infrastructure across Kenya.
- Delivered production support for high-volume banking systems, maintaining system stability, SLA uptime, and regulatory compliance in 24x7 critical banking environments.
- Led cross-functional teams to resolve critical production incidents, reducing turnaround time and establishing operational run-books for continuity.

Implementation Consultant — Core Banking

Client: *Standard Bank of Africa (SBA), Johannesburg*

Set 2007 – Jun 2010

Finastra Software Solutions (India) Pvt Ltd | Johannesburg

- Contributed to flagship Core Banking implementation and legacy modernization across multiple SBA geographies, covering solution design, configuration, and testing.
- Key role in Lending and MoneyGram module pilot implementations, enabling new product lines across target markets.
- Coordinated multi-country go-live across 14 nations — deployment sequencing, production readiness, and post-go-live stabilization.

TECHNICAL PROFICIENCY

Core Banking	Flexcube 14.8, T24 (Temenos), Essence Fusion Banking, Finastra Teller Systems
Payments	ISO 8583 (ATM/Card), ISO 20022, SWIFT Messaging, SMS Banking, MoneyGram
Credit & CRM	Experian PCSM, Strategy Design Studio (SDS), Salesforce CRM, Customer 360°
Integration	API-led Integration, Middleware Architecture, SOAP UI, Postman
Test & QA	ALM/HPQC, JIRA, TCoE Framework, UAT Governance, Regression Management
Delivery / SDLC	Agile, Scrum, DevOps, CI/CD, PMO Governance, RACI, KPI Reporting, SteerCo
Technology	UNIX / Shell Scripting, API Integration, Visual Basic (Legacy)

EDUCATION & CERTIFICATIONS

Academic Qualifications MCA — Master of Computer Applications GNIIT — Software Engineering, NIIT	Professional Certification PMP® — Project Management Professional PMI Certified
