PROFESSIONAL SUMMARY

Detail-oriented finance professional with experience in transaction processing and client servicing in the mutual fund industry, recently promoted to Senior Transaction Processing Analyst at SS&C GlobeOp for strong accuracy and operational performance. Trained in investment banking operations (Imarticus Learning), covering trade life cycle, AML/KYC, and SWIFT. Seeking to transition into an investment banking operations, compliance, or corporate finance analyst role.

SKILLS

- AML/KYC Compliance | Trade Life Cycle | SWIFT Operations | Reconciliation
- Attention to Detail
- Microsoft Excel (XLOOKUP, VLOOKUP, Pivot Tables) | Word & PowerPoint

EXPERIENCE

SS&C GlobeOp | Mumbai, Maharashtra

Senior Transaction Processing Analyst

March 2026 – Present

Promoted to Senior Transaction Processing Analyst in March 2026 in recognition of consistent accuracy, strong operational performance, and reliability in transaction processing.

- Reviewed and rectified processing errors identified in transactions handled by team members, contributing to improved overall data quality and operational accuracy.
- Conducted thorough post-processing quality checks to verify transaction completeness, correctness, and compliance with internal policies and regulatory requirements.
- Supported strong operational risk management practices by adhering to control procedures and maintaining high standards of data integrity.
- Supported creation and maintenance of investor/trading accounts, validating client information, account attributes, and supporting documentation before system updates.
- Supported Standing Settlement Instruction (SSI) creation, amendment and maintenance, ensuring accurate settlement and beneficiary information.
- Maintained and validated client/investor master data, ensuring accuracy and consistency across operational systems and records.
- Performed detailed reconciliation of transaction and investor data, identified discrepancies and breaks, investigated root causes, and coordinated with relevant teams for timely resolution.
- Reviewed and updated client/account information based on approved documentation and transaction requests.
- Collaborated effectively with cross-functional teams to resolve client and operational issues, ensuring smooth and timely transaction execution.

Transaction Processing Analyst

November 2024 – March 2026

- Processed a high volume of investor transactions, including subscriptions, switches, and transfers across multiple mutual fund schemes, while ensuring accuracy and strict adherence to operational procedures and compliance standards.
- Executed end-to-end transaction processing within defined service level agreements (SLA) and turnaround times (TAT), maintaining efficiency in a fast-paced environment.
- Validated trade instructions, investor details, and supporting documentation prior to processing to ensure accuracy and minimize operational and financial risk.
- Ensured accurate client onboarding and transaction processing by verifying documentation in line with Know Your Customer (KYC) and Anti-Money Laundering (AML) regulations.
- Performed detailed data validation and reconciliations to maintain consistency and integrity across operational systems and records.
- Efficiently managed multiple high-priority tasks simultaneously in a deadline-driven environment while consistently meeting productivity and quality benchmarks.

Hexaware Technologies | Mumbai, Maharashtra

Senior Executive

July 2023 – March 2024

- Managed the end-to-end operations lifecycle from sourcing to onboarding.
- Processed employee onboarding documentation, ensuring accuracy, completeness, and timely completion.

Teleperformance Pvt. Ltd. | Mumbai, Maharashtra

Executive

February 2022 – July 2023

- Developed strong communication, stakeholder management, analytical, and problem-solving skills.
- Managed high-volume workloads while consistently achieving productivity and quality targets.
- Conducted induction sessions for new hires on process workflows, company policies, and quality standards.
