

Sanjay Parab

Project Change Lead - Data and Business Analyst

Mobile No: +91 8867912559 Email Id: roltabic@gmail.com

Address: Bangalore, India

Results-driven Project Manager and Business Analyst with 15+ years progressive experience in the Banking, Insurance, Finance and Accounting; certified PMP, RPA Program Manager, and Six Sigma Green Belt. Expert in leading Digital transformations, AI/RPA-driven solution delivery, and extensive process automation, consistently achieving significant cost savings (e.g., 750K Euro) and operational efficiencies (e.g., 35+ FTEs) for global financial institutions.

Professional Summary

- Result driven leader with 15+ years of experience in Digital Transformation. Expertly led digital initiatives within banking, Finance and accounting sector, specialising in AI-driven solution delivery, RPA implementation, and process automation.
- Engineered AI-based solutions resulting in 750K Euro savings for securities processes by converting unstructured data into structured formats.
- Successfully delivered enterprise-wide projects, including deployment of a transaction screening workflow across 26 countries to mitigate risk and enhance operational controls.
- Achieved significant efficiency gains, including 35+ FTE benefits from multi-client RPA implementations (UiPath, Automation Anywhere, Blue Prism) and 20 FTEs from static data and account opening automation.
- Directed end-to-end ERP Implementations (MS Dynamics, SAP), automating PTP, RTR, and OTC processes, and integrating systems like Ariba and Coupa.
- Proficient in data analysis, data migration, and leveraging tools like Tableau for enhanced reporting and decision-making, delivering 10 FTE benefits through report automation.
- PMP, RPA Program Manager (Automation Anywhere), and Six Sigma Green Belt certified, demonstrating commitment to project management excellence and continuous improvement.

Work Experience

Nov 2021 - Present

Assistant Vice President - F2B Transformation

Deutsche Bank India Pvt. Ltd. (Bangalore, India)

Project Change Lead; Delivery Lead; Data and Business Analyst

- Directed full Front-to-Back (F2B) transformation processes for corporate banking delivery, leveraging strategic AI-based solutions and defining futuristic Target Operating Models for Deutsche Bank India.
- Engineered an impactful AI-based solution to convert unstructured data into structured formats, successfully generating 750K Euro savings within securities processes.
- Coordinated extensively with Operations leads to analyze and enhance existing processes, seamlessly injecting data into downstream systems through a Kafka-based Work Manager workflow and automating SWIFT format attributes (MT568 and MT564).
- Managed technical delivery, conducted thorough analysis of settlement trade repairs, and implemented an Agentic AI solution, leading to a notable reduction in Full-Time Equivalent (FTE) requirements.
- Deployed an automated Screening Portal workflow for Manual HotScan across 26 countries, effectively mitigating risks associated with manual processes and enhancing operational controls.
- Championed and executed Static Data Account Opening and Maintenance automation, securing a 10 FTE benefit through effective multi-team coordination.

Achievements:

- Generated 750K Euro in savings by implementing an AI-based solution to convert unstructured data for securities processes.
- Achieved 20 FTE benefit through successful leadership of Static Data Account Opening and Maintenance automation.
- Eliminated Sanction Risks and established robust process controls, significantly enhancing compliance and operational integrity.
- Reduced SII Risk by developing and implementing strategic solutions across banking operations.
- Realized 10 FTE benefits through targeted RPA implementations within critical banking functions.

Jan 2013 - Nov 2021

Senior Manager - Digital Centre

Exlservice.com (1) Pvt. Ltd. (Bangalore and Noida)

Scrum Master; Project and Program Manager; RPA Delivery Lead; ERP Implementation Lead

Soft Skills

- Leadership
- Strategic Thinking
- Problem-solving
- Stakeholder Management
- Analytical Acumen
- RFP and Proposal Creation

Technical Skills

- AI & Machine Learning Solutions
- Robotic Process Automation (RPA)
- ERP Systems (SAP, MS Dynamics)
- Process Automation & Optimization
- Project & Program Management (PMP)
- Data Analysis & Migration
- Low-code/No-code Platforms
- Tableau (Data Visualization)
- Agentic AI
- Gemini AI
- Power App and Dashboard

Core Competencies

- AI-driven Solution Delivery
- RPA Implementation & Governance
- F2B Transformation Leadership
- ERP System Integration
- Strategic Process Optimization

- Guided client digital transformation by formulating AI-based strategic solutions and defining Target Operating Models, encompassing ERP implementations and process automation.
- Provided extensive project leadership across IT projects in Insurance, Finance, and Accounting, fulfilling roles as Scrum Master, Project Manager, Delivery Lead, Business Analyst, and ERP Implementation Lead.
- Orchestrated the deployment of enterprise-level Appian workflows (e.g., Contract Creation for Avon Insurance UK) and spearheaded AI/ML initiatives, including invoice OCR extraction for Zurich Insurance UK.
- Directed the setup and execution of multiple RPA processes and Centers of Excellence (CoEs) for diverse clients (e.g., KPMG, Cox Communication, Polaris), leveraging UiPath and Automation Anywhere.
- Led end-to-end ERP implementations with MS-Dynamics for US-based clients, integrating finance functions into reporting systems and resolving complex accounting challenges.
- Assisted Sales team in creating RFP and Proposals for New client Win

Achievements:

- Received multiple client appreciation and cash awards for successful project delivery and innovative solutions.
- Achieved over 35 FTE benefits through various RPA implementations utilizing UiPath, Automation Anywhere, and Blue Prism for distinguished clients including Aon, Liberty Mutuals, and KPMG.
- Automated Procure-to-Pay (PTP), Record-to-Report (RTR), and Order-to-Cash (OTC) processes, integrating ERP implementations with Ariba and Coupa platforms.

Jun 2010 - Jan 2013

Business Application Specialist II

Quattro FPO Solutions I. Pvt. Ltd. (Mumbai)

Process Automation Development; Report Development; ERP Support; Enhancement; Migration

- Provided critical Business Application Support to US-based industry clients, specializing in ERP systems and EDI automation to enhance operational processes and workflows.
- Oversaw diverse ERP support and automation development projects, ensuring precise alignment with client objectives and strategic business plans.
- Managed successful client process migrations from Microsoft Dynamics GP to SAP, demonstrating advanced expertise in Enterprise Resource Planning systems.
- Constructed detailed multidimensional financial reports utilizing FRX and Crystal Reports, enabling data-driven decision-making within client organizations.
- Orchestrated complex system integrations and collaborated with cross-functional teams to automate financial reporting processes, improving accuracy and efficiency.

Achievements:

- Successfully migrated multiple client processes from Microsoft GP to SAP and designed advanced multi-dimensional reports.
- Achieved 10 FTE benefits through comprehensive report automation initiatives.
- Realized an additional 10 FTE benefits by optimizing and integrating Accounts Payable (AP) processes.

Education

Bachelor of Commerce (with Finance and Accounting)

Mumbai University, Mumbai, India
(Apr 1997)

Achievements

- Received multiple client appreciation and cash awards for successful project delivery and innovative solutions during tenure at Exlservice.com, recognizing excellence in transforming digital capabilities for clients.

Certifications

- **PMP** (Certified PMP - 2020)
- **Foundation Course - Appian** (Certified Foundation Course)
- **Six Sigma Green Belt** (Certified Six Sigma Green Belt)
- **Tableau Dashboard Fundamentals**
- **RPA Program Manager - Automation Anywhere** (Certified RPA Program Manager)
- **Certified Agile Professional - Scrum Master and Product owner Trained** (Trainsmart Academy - India)

Projects

USD AI OPS 0.3

- Enabled comprehensive automation of SWIFT MT564 and MT568 messaging, generating significant cost savings and substantially improving process efficiency by implementing with DOC AI and Bluprism RPA with Kafka workflow for Custody and Securities operations

Client Onboarding - Account Opening (DbInternet)

- Orchestrated end-to-end transformation of global cash A/C onboarding; integrated legacy systems and implemented API/STP-driven strategic solution with Gemini AI Doc extraction

Transaction Filtering Workflow (HotScan)

- Deployed a Kafka based global transaction screening workflow leveraging HotScan technology across 26 countries to optimise maker-checker controls

ITMX Bulk Payment Workflow

- Delivered an end-to-end ITMX bulk payment correction workflow, directly addressing critical audit findings with integration of RPA and Workflow

Non-Alert ICI & Espear - DBSIR Migration

- Directed the comprehensive data migration of SSI access codes from CDRS to DBSIR to ensure seamless reconciliation leveraged Python and SQL skillsets

FXPCA SDP Development (SSI MT202/1 03)

Architected and optimized SWIFT SSI processing workflows, specifically for swift MT202/1 03; Integrated and enhanced RPA capabilities

SSI Tableau Dashboard Implementation

- Developed and deployed Tableau dashboards to replace and significantly improved data visibility for stakeholders and reduced manual effort in report generation with SQL

Intercompany Reconciliation - Proposal Creation

- Formulated a strategic inter-company reconciliation proposal, based on comprehensive analysis of inter-system platforms; aimed at driving significant productivity improvements with FTE benefit

RPA - BSM Approval, KYC Offboarding, CLM Account Opening

- Deployed multiple RPA deliveries across critical banking processes, with AI based OCR extraction; specifically BSM Approval, KYC Offboarding, and CLM Account Opening with multiple FTE saves

Multiple Projects at EXL

- Managed Appian implementation as Scrum Master for Client Aon, delivering integrated Appian workflow solutions with Workday for contract payment processing.
- Led AI Language translation with OCR Extraction and RPA rollout programs as Delivery Lead for Liberty Mutual expanding across 14 markets and realising 30+ FTE savings.
- Directed multi-client RPA implementation with AI based OCR extraction programs as RPA Manager for Cox, KPMG, and Trinity, achieving award recognition for successful delivery.
- Consulted on ERP implementation (MS Dynamics GP) for GTM Insurance, deploying PTP, R2R, and OTC configurations and automation across 13 branches.
- Implemented Ariba and Accounts Payable (AP) automation, including EFT and payment processing with robust controls, for Discover Financial Services US. Additionally, executed ERP implementation (MS Dynamics GP) for National Slovak Society US, integrating AP and reconciliation automation.
- Assisted various Client on-boarding / Sales team to create RFPs and Proposals for new client wins

Domain Knowledge

Corporate Banking : Client On-Boarding/ Off-boarding, Transaction Surveillance - Cash OPS, Custody and Securities, Trade & Finance,

Investment Banking : FX settlement, SSI;

Anti Money Laundering (AML); Sanctions Screening; Transaction Surveillance KYC

- Due Diligence - NCR; PR, Off-Boarding

Insurance, Manufacturing, Finance and Accounting: Accounts Payable; Accounts Receivable, General Ledger; Sales Order

Processing; Purchase order Processing; Bank reconciliation, Order to Cash; Procure to Pay

ERP : MS Dynamics 365 F&O; SAP FICO; MS Dynamics GP

RPA Tools : UiPath; Automation Anywhere; BluePrism; Power Automate BPM

tools : Appian; Power App

Reporting Tools : PowerBI; Tableau Dashboard; SSRS; Crystal Report; Management Reporter(FRX) Gen

AI tools : Agentic AI; Doc AI; MS Copilot, DB Lumina; GeminiAI

Project Management Tool: JIRA; Confluence MS Visio
