New Delhi

EDUCATION

- PGDM - OPERATIONS
Symbiosis University
- B.COM (HONS)
St. Xavier's College - Kolkata

CERTIFICATION

- Design Thinking and Innovation - IIT Delhi
- Lean Six Sigma (Black Belt)
- Certified Internal Auditor
- Certified ISO 9001, 14001, 27001
- Train The Trainer Certified
- PMP Certification (Expected 2026)
- Advanced Certificate in Software Engineering - IBM

AI & DIGITAL ECOSYSTEM

- Ai & Generative AI :**
GPT • Gemini • Claude • Microsoft Copilot • LLMs • Conversational AI
- Intelligent Automation:**
UiPath • Automation Anywhere • ABBYY Tesseract OCR • Google Cloud Vision AI
- Enterprise Platform**
SAP S/4HANA • Microsoft Dynamics 365
• Oracle ERP • BlackLine
- Cloud Platforms:**
AWS • Google Cloud Platform (GCP)
- Process Mining and Analytics:**
Celonis • Power BI • Tableau
- BPM & Workflow Automation:**
ServiceNow • Pega Platform
- Process Mapping & Documentation:**
BPMN • Visio • ARIS • Signavio

PROFESSIONAL SUMMARY

Enterprise AI & Digital Transformation Leader with 18+ years of consulting and enterprise transformation experience driving business transformation, AI strategy, operating model redesign, transformation governance, digital modernization, intelligent automation and executive advisory across BFSI, GBS/GCC, Shared Services and Global Operations. Trusted advisor to CXOs defining Enterprise AI Strategy, AI Operating Models, Transformation Roadmaps, AI Governance, Responsible AI and investment prioritization, delivering enterprise AI-led programs generating \$50M+ business value through AI adoption, decision intelligence and operational excellence.

CORE COMPETENCIES

Enterprise AI Strategy & Digital Transformation

- Define enterprise AI strategy, digital transformation roadmaps, governance and value realization aligned with business objectives.

Business Transformation & Target Operating Model (TOM) Design

- Design future-state business processes, Target Operating Models (TOM), operating frameworks and enterprise transformation blueprints.

Transformation Control Tower & Portfolio Governance

- Led enterprise Transformation Control Tower ops overseeing governance, executive reporting, RAID management, portfolio health & cross-functional dependencies.

Generative AI, Agentic AI & AI Governance

- Establish enterprise GenAI, Agentic AI, Responsible AI, governance frameworks, AI operating models and scalable AI adoption.

Enterprise Architecture & Business Capability & Application Modernisation

- Align business capabilities, architecture and technology with transformation goals.

Data Strategy & AI-Driven Decision Intelligence

- Enable decision intelligence through analytics, AI, and process mining.

Intelligent Automation & Hyperautomation

- Deliver AI-enabled automation, RPA, IDP, workflow orchestration and hyperautomation to improve productivity and operational efficiency.

Executive Advisory & Stakeholder Leadership

- Partner with CXOs to drive transformation, strategic decisions and business growth.

Business Case, Value Realization & Strategic Solutioning

- Develop AI business cases, PoCs, ROI models and value realization.

GBS/GCC & Shared Services Transformation

- Drive GBS/GCC strategy, operating model transformation, service delivery modernization, and shared services optimization.

Enterprise Process Transformation & Operational Excellence

- Optimize enterprise processes with Lean, Six Sigma, VSM, and process mining.

Enterprise AI Operating Model & Change Adoption

- Define enterprise AI operating models, governance and adoption strategies.

Pre-Sales & Strategic Solutioning

- Lead RFP/RFI responses, Proposals, PoC and ROI/TCO Modeling.

KEY TRANSFORMATION INITIATIVES & BUSINESS IMPACT

- **Operational Excellence & Decision Intelligence:** Combined Lean Six Sigma, Process Mining, AI-driven analytics to eliminate 40% operational inefficiencies, strengthen governance, accelerate decision-making & generate \$10M+ measurable business value.
- **AI-Powered CX Transformation:** Implemented Google CCAI, Conversational AI, Agent Assist and GenAI solutions, reducing AHT by up to 28%, increasing FCR to 76%, improving CSAT by up to 20 points, and delivering up to 3.2x ROI.
- **GenAI-Powered Employee Services:** Deployed a Virtual HR Assistant automating 70%+ HR queries, reducing email traffic by 60%, lowering ticket volumes by 40%, and enabling 24x7 self-service support.
- **Insurance Claims Transformation:** Led AI-driven claims transformation spanning FNOL, adjudication, fraud detection, workflow automation, and IDP (OCR/ML), improving cycle time by 30%, SLA by 42%, achieving 94% first-pass accuracy & delivering 5.6x ROI.
- **Order-to-Cash (O2C):** Enabled RPA-led order fulfillment transformation, reducing processing time by 62.5%, improving accuracy by 10%, increasing inventory turnover by 40%, and enhancing customer satisfaction.
- **Procure-to-Pay (P2P):** Automated procurement operations across four regions using RPA, OCR and analytics, reducing cycle time by 48%, decreasing invoice mismatches from 17% to 4%, and delivering 225% ROI.
- **Record-to-Report (R2R):** Automated 88% of journal entries, reduced close cycles by 42%, cut reconciliation backlogs by 84%, and achieved significant annual cost avoidance through intelligent controls and reporting.

PROFESSIONAL EXPERIENCE

Senior Manager - Enterprise AI and Digital Transformation

ARYA CONSULTANCY SERVICES

July' 25 - Present

Executive scope

Lead **enterprise-wide AI** and **digital transformation strategy** across **BFSI, GBS/GCC** and **Shared Services**, advising **CXOs** on **Enterprise AI Strategy, Target Operating Models, Transformation Portfolio Governance, AI adoption, investment prioritization, and measurable business value realization.**

Leadership Highlights

- Define **Enterprise AI Strategy, Transformation Roadmaps, Target Operating Models** and **AI Operating Models** aligned with business priorities.
- Govern **Transformation Portfolio, Investment Governance, Steering Committee, Benefits Realization & enterprise AI adoption.**
- Lead enterprise **transformation governance** through executive steering committees, technology governance boards, portfolio reporting, executive dashboards, **RAID management**, investment oversight, and benefits realization.
- Direct **AI operating model modernization** integrating **people, processes, technology & data** to accelerate **digital transformation.**
- Drive **executive advisory, discovery workshops, strategic solutioning, proposal development & enterprise transformation consulting.**
- Designed executive dashboards for portfolio health, transformation KPIs, decision support and governance reporting.

Senior Manager - Lean Digital Transformation

GENPACT

Mar' 22 - July' 25

Executive scope

Directed **enterprise transformation programs** across global BFSI operations, leading **AI-enabled business transformation, operating model modernization, process optimization, governance, advanced analytics** and **executive stakeholder engagement.**

Leadership Highlights

- Led enterprise **Transformation Office (TMO)** governance & transformation portfolio prioritization.
- **Managed governance cadence** across **PMO, portfolio, and executive steering reviews.**
- Established enterprise **RAID governance (Risks, Assumptions, Issues, Dependencies)**, ensuring ownership, mitigation tracking, executive visibility, and timely resolution across global transformation programs.
- Defined **governance pathways** for **enterprise transformation reviews, approvals, and investment decisions.**
- Directed **operating model redesign, business capability transformation, process mining** and **decision intelligence initiatives**
- Enabled **AI-driven automation, analytics & digital modernization** improving **operational efficiency & customer outcomes.**

Associate Manager - Business Transformation

ACCENTURE

Mar' 17 - Mar'22

Executive scope

Led **global enterprise transformation consulting** engagements advising **Fortune 500 clients** on **digital strategy, Enterprise AI readiness, Target Operating Models, automation strategy, governance** and **enterprise transformation roadmaps**.

Key Achievements

- Conducted **enterprise transformation assessments, business capability mapping** and **Target Operating Model design**.
- Led **executive workshops, AI discovery sessions, operating model assessments, and digital maturity assessments**.
- Defined **Enterprise Architecture alignment, automation strategy** and **transformation blueprints** supporting **strategic business objectives**.
- Established **Transformation CoEs, governance frameworks, knowledge management** and **enterprise performance reporting**.
- Delivered **enterprise AI, automation, Lean Six Sigma & operational excellence initiatives** generating **measurable business value**.

Manager - Quality and Process Improvement

US TECH SOLUTIONS

Apr' 15 - Feb' 17

Executive scope

Led **enterprise quality, governance, and operational transformation initiatives** delivering **process optimization, compliance excellence, performance improvement, and business transformation** across **global operations**.

Key Achievements

- Directed **enterprise process transformation** using **Lean Six Sigma, Value Stream Mapping, RCA** and **continuous improvement**.
- Governed **enterprise quality, compliance, risk** and **ISO management systems**.
- Led **cross-functional transformation initiatives** improving **operational maturity, productivity** and **customer outcomes**.

Assistant Manager - Delivery Excellence

HCL TECHNOLOGIES

May' 10 - Mar' 15

Executive scope

Led **enterprise operational excellence, governance** and **process transformation initiatives** improving **business performance, customer experience** and **service delivery excellence**.

Key Achievements

- Led **cross-functional teams of 160+ resources** through **KPI governance, continuous improvement** and **operational excellence**.
- Led **cross-functional teams** delivering **process optimization, performance improvement** and **service quality transformation**.
- Established **governance frameworks** driving **continuous improvement** and **operational maturity**.

Team Lead - Delivery Excellence

WIPRO

Oct' 04 - Apr'10

Executive scope

Led **service delivery, governance** and **operational transformation initiatives** strengthening **customer experience, business performance** and **organizational capability** across **global operations**.

Key Achievements

- Promoted **twice** based on **high performance** and **leadership**.
- Led **service delivery, KPI governance, customer experience improvement** and **continuous process transformation**.
- Built foundational expertise in **business operations, process excellence** and **people leadership**.
- Managed **service delivery, governance, KPI management, and continuous improvement initiatives**.
- Improved **customer experience, operational performance, and delivery excellence** through **structured transformation programs**.
- Built foundational expertise in **enterprise operations, governance, process transformation, and people leadership**.
