PROFILE SUMMARY

Lead Business Analyst / Product Owner with 9+ years of experience across Payments, BFSI, Finance, Healthcare, and E-commerce domains, specializing in Core Banking, RTGS, NEFT, Cross-Border Payments, SWIFT MT/MX, ISO 20022, CBPR+, SEPA, and MT to MX migration. Experienced in requirements gathering, stakeholder management, Agile delivery, functional & solution consulting, operations and project coordination, UAT, and end-to-end payment lifecycle. Proficient in SQL, Tableau, Power BI, and AI tools for data analysis, documentation, and process optimization.

WORK EXPERIENCE

REI Systems

OCT2022 - PRESENT

Lead Business Analyst / Product Owner

• Projects

>Grant & Cross-Border Payment Tracking Portal

Objective: Developed a portal for operations teams and corporate customers to track SWIFT cross-border payments from initiation to settlement, including payment status, exception handling, SWIFT reference search, and reconciliation.

>SWIFT MT to ISO 20022 (CBPR+) Migration

Objective: To enable the bank to transition from SWIFT MT messages to ISO 20022 (MX) under the CBPR+ program for cross-border payments, ensuring regulatory compliance, standardized messaging, enhanced data quality, and uninterrupted payment processing.

Roles and Responsibilities:

- Acted as the primary liaison between business stakeholders, product owners, and technical teams to gather, analyze, and document business and functional requirements.
- Conducted stakeholder workshops with business users, payment operations, and issuing/correspondent banks to understand payment processing requirements and regulatory changes.
- Prepared BRDs, FRDs, user stories, process flows, and acceptance criteria for payment system enhancements.
- Defined and validated SWIFT MT to ISO 20022 (MX) message mapping (e.g., MT103 → pacs.008, MT202 → pacs.009) in accordance with CBPR+ guidelines.
- Analyzed bank implementation guidelines and payment specifications to identify functional gaps, perform impact analysis, and provide root cause analysis (RCA) for production issues.
- Collaborated with development teams to define business rules, payment validations, and message transformation logic for payment file conversion and optimization.
- Worked with payment messaging standards including SWIFT MT1xx/MT2xx/MT9xx, ISO 20022 (pacs, pain), SEPA, and CBPR+.
- Coordinated API and integration discussions with Core Banking, Payment Hub, and external banking systems to ensure seamless end-to-end payment.
