## WORK EXPERIENCE

AVP – Agile Product Owner

Deutsche Bank Pvt Ltd

Sept 2023 - present

- Act as Lead Business Analyst and SME for enterprise platforms supporting client onboarding application alignment with credit risk applications, risk controls, and data governance initiatives.
- Gathered, analyzed, and documented business and functional and non-functional requirements (BRD/FRD) by partnering with Operations, Compliance, Technology, and Product stakeholders.
- Owned end-to-end delivery of multiple workstreams including scope definition, milestones, dependency management, and execution within committed timelines.
- Perform data analysis, validation and issue investigations using SQL and enterprise datasets.
- Collaborated with business and technology teams to define requirements for API-based integrations, data exchange workflows, and cloud-based applications, ensuring seamless data flow across enterprise platforms.
- Lead SIT/UAT planning, defect triage, production support, risk management and governance activities.
- Reviewed and validated structured message payloads (JSON/XML) during SIT/UAT cycles, ensuring field-level accuracy across system interfaces and flagging mapping discrepancies in coordination with Solution Architects and component teams.
- Leveraged Generative AI tools (Microsoft Copilot and Google Gemini) to accelerate requirements engineering, impact analysis, documentation, test case generation, process optimization, and knowledge management activities, improving delivery efficiency and team productivity.

ENO – Business Analyst

Credit Suisse

Mar 2021 – Sept 2023

- Led requirements gathering, impact analysis, BRD/FRD documentation and workflow analysis.

- Translated business needs into system specifications, user stories and testing requirements.
- Supported Agile SDLC, SIT/UAT, regression testing and governance reporting.
- Collaborated with global stakeholders and managed dependencies and issue resolution.

#### Sr Analyst 1 – Fixed Income Reference data

IHS Markit (now S&P Global Inc)

Apr 2015 - Mar 2021

- Defined business requirements and translated complex workflows into automation opportunities.
- Managed data quality, feed mapping, data lineage and fixed-income reference datasets.
- Supported fixed income reference data processes utilized by investment banking and asset servicing stakeholders.
- Supported reporting needs and executive dashboards using trusted data sources.
- Partnered with Product Owners and Scrum teams to prioritize enhancements and delivery outcomes.

#### Process Analyst

Broadridge Financial Solution

Jan 2014 – Apr 2015

- Supported trade settlement operations, process improvements, operational risk mitigation and SLA adherence.
- Contributed to process improvement initiatives, trained team members on DTCC, ADP BPS, and Qestrade Arrow, and supported operational excellence.

### ACHIEVEMENTS

- Substantial contribution in ongoing projects that led our team being awarded the best team for quarter ended 2017
- Received an award in 2016 for outstanding performance and contribution.
- Made successful transition of process from Hyderabad to Delhi
- Appreciated for closing critical audit point with one of the legacy feed migrations
