PROFESSIONAL EXPERIENCE

Deloitte South Asia LLP – Audit & Assurance (Fund Accounting) | Team Lead – Project Management Operations | Feb 2026 – Present

- Lead project management operations within fund accounting for Real Estate, Private Equity, and Hedge Fund clients.
- Oversee NAV reviews, valuation processes, and audit deliverables aligned with US GAAP and client timelines.
- Manage fund operations including cash monitoring, reconciliations, investor reporting coordination, and closure of audit/reporting cycles.
- Coordinate with cross-functional stakeholders to resolve operational issues and ensure timely delivery of reporting activities.
- Drive process improvement and automation initiatives to improve review efficiency and reduce turnaround time.
- Support trade lifecycle activities across investment products, including trade capture, validation, processing, reconciliation, and settlement.

Incedo Inc. – Fund Services (Partners Capital) | Associate – Operations & Transformation / Private Equity | Feb 2024 – Feb 2026

- Reviewed monthly and quarterly NAVs and valuations for Private Equity, Hedge Fund, and Fund-of-Funds vehicles, supporting financial reporting and audit deliverables.
- Performed cash projections, bank reconciliations, and liquidity monitoring while tracking capital calls, distributions, subscriptions, and fund cash movements.
- Managed fund operations covering cash management, wire setup, credit facility maintenance, expense tracking, and capital activity processing.
- Reviewed NAV capital statements and subscription, redemption, exchange, and transfer contract notes.
- Managed end-to-end Trade Life Cycle (TLC) activities across fund transactions, covering trade capture, validation, processing, reconciliation, and settlement.
- Performed trade validation and processing, investigated trade exceptions, and coordinated timely resolution.
- Conducted trade reconciliation between internal fund records, Investment Managers, brokers, and custodians, resolving trade, cash, and position breaks.
- Monitored pending/failed settlements, investigated settlement discrepancies, and followed up with stakeholders for timely closure.
- Performed cash and position reconciliations as part of the trade lifecycle, validating transaction movements against bank, broker, and custodian records.
- Supported month-end closing and trade lifecycle controls to ensure investment transactions were accurately reflected in NAV and financial reporting.
- Prepared/reviewed FATCA/CRS and US tax reporting support documentation, including W-8, W-9, K-1 and K-3 related documents.

- Implemented AI-driven process improvements, reducing review time by 20% and processing errors by 80%.

Amazon Development Centre India Pvt. Ltd. | Associate | Oct 2022 – Feb 2023

- Analyzed high-risk financial transactions and performed transaction validation to identify discrepancies and operational risks.
- Performed account and transaction reconciliations, investigating mismatches and supporting accurate financial records.
- Conducted transaction-level reviews, identified exceptions, and supported timely resolution through structured investigation.
- Performed risk analysis to identify potential fraud indicators and unusual transaction patterns.
- Supported financial control activities through transaction validation, exception management, and adherence to established procedures.
- Investigated transaction discrepancies and coordinated with internal stakeholders for clarification and resolution.
- Maintained documentation of transaction reviews, exceptions, and resolution activities while meeting quality and turnaround requirements.

Tech Mahindra India Pvt. Ltd. | Customer Support Executive | Aug 2021 – Oct 2022

- Handled customer queries and service requests through defined support processes, ensuring timely and accurate resolution.
- Investigated customer issues, performed basic troubleshooting, and coordinated with relevant teams for resolution.
- Maintained accurate records of customer interactions, issues, resolutions, and follow-ups.
- Managed escalations in line with defined procedures and ensured appropriate communication until closure.
- Maintained service quality and turnaround-time standards while handling multiple customer requests.
- Analyzed recurring customer issues and feedback to identify opportunities for service/process improvement.
- Collaborated with internal teams to resolve complex issues and ensure a consistent customer experience.
