

Satyabrata B Nayak. PMP

976-9159-373

satyabrata.b.nayak@gmail.com

Key Project Highlights

- ✓ **UPI Platform** (AutoPay, UPI Lite, Credit-on-UPI, NPCI certification)
- ✓ **IMPS/UPI Migration** (ISO 8583 → XML)
- ✓ **SFMS Upgrade** (ISO 20022 compliance)
- ✓ **Global Transaction Banking** (Cash Management & Treasury Platforms)

Skills

Core Delivery & Leadership: Agile · Waterfall · ITIL V3.0 · Change & Release Management · Risk, Compliance · Conflict Resolution · Stakeholder Engagement · Vendor Management · Service Delivery & Sev 1 Incident Management · Process Optimization · Continuous Improvement ·

BFSI & Payments Domain: UPI · IMPS · RTGS · NEFT · SFMS · NFS · BBPS · RuPay · VISA · POS · Cross-Border Payments · Merchant Acquiring · Fraud & Risk · KYC · AML · ISO 20022 · Core Banking · RBI/NPCI Compliance ·

AI & Digital Productivity: Generative AI (Claude, ChatGPT, Google Gen AI) · AI-Augmented Delivery · Prompt Engineering · Automation & AI-assisted Reporting

Tools & Technologies: MS Office · MS Project · Microsoft Visio · Power BI · ServiceNow · JIRA · Confluence · Postman · Oracle · Unix · Java

Education

- ✓ **PMP | PMI, USA** – 2022 - PMP No.: 3222681
- ✓ **People Management** – 2021-IIMB
- ✓ **ITIL V3.0 Foundation certification**
- ✓ **Generative AI:** Claude 101 | Claude Code | Google GenAI Leader (Certification In Progress)
- ✓ **MSc. IT** – 2007 Kuvempu University

Awards and Honors

- ✓ Attained "**Live Wire Performer**" **Award - 2011** for Outstanding Performance on a Project Transition

Profile Summary

PMP-certified Delivery Leader with 18+ years in BFSI and payments, specializing in large-scale program delivery, payment integrations, and high-volume transaction platforms. Proven expertise in UPI, IMPS, and Global Transaction Banking (GTB) platforms, with strong experience managing global stakeholders, release governance, and cross-functional delivery. Focused on driving operational efficiency, compliance, and delivery excellence. Upskilled in Generative AI to enable automation and intelligent delivery.

Professional Experience

Delivery Manager, @ Mindgate Solutions, 2024-Present

Damji Shamji Business Galleria, Kanjur Marg (W), Mumbai - 400078

- **Owned end-to-end delivery** of UPI/payment platforms, ensuring production stability and release governance.
- **Led Sev-1 incidents and war-room resolution**, minimizing business impact through structured escalation and root-cause closure.
- **Drove process optimization and delivery automation** to improve efficiency and reduce turnaround time.
- Managed cross-functional stakeholder communication and delivery governance for critical **NPCI-regulated payment systems**.
- Coordinated **roadmap definition, milestones, and critical-path planning** across parallel workstreams in an Agile/Scrum environment.

Tech. Delivery Manager, @ Bank of America, 2022-2024

One BKC, G Block, A Wing, Bandra East, Mumbai

- Improved project delivery efficiency by **40%** through proactive risk identification, dependency management, and mitigation strategies.
- Managed **API and file-based integration** workstreams, enabling seamless connectivity across banking applications and reporting platforms.
- Delivered **governance reports and project status updates**, to senior stakeholders, ensuring alignment across business, IT, and product teams.
- Coordinated **release planning and production deployments**, including sequencing, risk review, and rollback readiness.

Career Transition & Professional Dev., Sep. 2019 – 2022 July.

- Utilized this period for **PMP (PMI, USA)** and **People Management (IIMB)** certifications; also completed Agile/Jira.

Sr. Project Analyst, Deutsche Bank Apr. 2016- Sep. 2019

B4, 5th Floor, Nirlon Knowledge Park | Goregaon(E), Mumbai

- Managed Deutsche Bank **GTB platform implementation** for corporate cash management across APAC, Europe, and the Americas.
- Oversaw **file-format testing and validation** for Direct Debit and Collection files: XML, SEPA, ACH/NACHA, NEFT/RTGS, CSV, IDOC, MT101, MT102
- Improved SLA adherence by **23%** and enhanced UAT efficiency by **50%**, accelerating client onboarding and revenue realization.
- Managed client **payment file validation, reconciliation and integration testing** across global platforms; ensured compliance with security and audit requirements.

Technical Lead, L&T Infotech, 2015 - 2016

25/30, EPIP, 2nd Phase, KIADB | Whitefield, Bengaluru – 560066.

- Led a **9-member team**, improving productivity by **45%** through structured planning and performance tracking.
- Managed **release planning, change management and DR** activities.

Project Lead / Sr. Software Eng., HCL Technologies. 2010-2015

Bengaluru – India & Jurong East, Singapore.

- Improved on-time delivery by **68%** through effective planning conflict resolution
- Executed **DBDC Migration** for H2H secure file transfers (SSL, HTTPS, AS2, FTPS/SFTP protocols).

Earlier Roles

- Tech. Support Engineer / Portal Admin – cashram.in | Implementation Engineer – Pentasoft Technologies (retail banking solutions for Nationalized Banks)

Continuing Development

- ✓ Certificate of Teamwork Skills: Communicating Effectively in Groups | **University of Colorado, Boulder** – 2021

- ✓ Agile with Atlassian Jira | **Atlassian University** – 2022

- ✓ Professional Diploma Digitalization of Retail Banking | 2024

Reference

- ✓ Padmanabh Kowlagi, VP, Bank of America, Mumbai.

Project @ Mindgate :

Unified Payments Interface (UPI) – Led end-to-end UPI platform delivery covering backend switch integration, mobile app, and secure API rollout. Ensured NPCI/RB compliance (VAPT, OCs, transaction limits, dispute resolution) while enabling AutoPay UPI Lite, and Credit-on-UPI via SDK and QR-based merchant onboarding.

Project @ Bank of America :

IMPS and UPI:

RAW file to CSV file Format: Streamlined transaction file processing by eliminating redundancies and introducing structured headers and footers for better interoperability.

Migrating from ISO 8583 to XML: Upgraded to XML-based messaging enabling flexible APIs, unified NPCI code, digital signatures, and future-ready ISO 20022 compliance.

NPT Remediation: Modernized legacy systems, databases, and hardware to strengthen security, regulatory adherence, and operational efficiency.

SFMS Upgradation: Migrated to ISO 20022 replacing IFN298, improving global interoperability and seamless integration with worldwide financial networks

Project @ Deutsche Bank :

Global Transaction Banking (GTB) - Implementation and Services – Platform

Managed implementation of Deutsche Bank's GTB platform (db-direct internet) for corporate cash management across APAC, Europe, and America. Oversaw functional and technical requirement changes, file format testing for Direct Debit and Collection files (XML, SEPA, ACH/NACHA, NEFT/RTGS, CSV, IDOC, MT101, MT102), and ensured customer readiness for DBDI and db-eBills processing..

Project @ LnT Infotech :

Treasury management systems: Led application support projects to ensure smooth business onboarding. Responsibilities included operational planning, impact analysis, issue resolution, problem management, UAT, production release, DR and 24/7 support..

Project @ HCL Technologies:

DBDC Migration from 6.5 ver. to ver. 8.2: H2H file transfer application ensures secure file transfers by configuring client profile, installation of SSL certificate, implementing data level encryption and business rules. Connecting Clients to db-direct connect using HTTPS, AS2, FTPS & SFTP protocol.

CMS – Liferay & Alfresco: This platform serves as a portal for businesses to disseminate articles with different access levels, facilitating the sharing of various documents. It requires rigorous security measures to uphold data integrity and confidentiality.

DSR IT (Debts, Sales, and Research) project delivers RTB services to the client, aiming to streamline the Electronic Trading System (ETS) using tools like Hobbit Monitoring, ABFO, OTL, ORC & GL. It conducts regular health checks, addresses connectivity issues between client systems and exchanges, identifies application bugs, and monitors server processes to prevent failures and outages.
