- ③ Data Integration
- ③ KPI Tracking
- ③ Agile Analytics
- ③ Performance Management
- ③ Dashboard

Agile Delivery

- ③ Scrum / Hybrid Agile
- ③ Sprint Planning & Reviews
- ③ Sprint Retrospective
- ③ Release Management
- ③ Metrics & Reporting

Technical Skills

- ③ IBM MQ
- ③ SQL/Oracle
- ③ Unix/Linux/AIX
- ③ REST API/Postman
- ③ Apache Tomcat
- ③ MS Project, Excel, PP

Tools

- Jira / Azure Devops
- MPP
- Confluence
- Flexicube
- Payment Hub
- GIT
- Maven
- Jenkins
- Vision+
- TSYS PRIME
- BitBucket
- POSTMAN
- Finacle
- AWS
- SQL

Education

- ③ Graduate: B. Com
- ③ Passing Year: 05/2009
- ③ Percentage: 75%

Contact:

- ③ Address: 7 Vallal Pari Nagar,
1st Main Road, Pallikaranai.
Chennai: 600100

1. Work Experience – Senior Software Consultant - Expleo (2025 Mar – Present) (Senior Business Analyst / Senior Scrum Master)

Project 1: Client: Network International, Dubai (VISA/Master Card)

- ③ Worked as Product Owner / Senior Business Analyst for payment modernization and **ISO 20022 aligned message** processing initiatives.
- ③ Gathered and Analyzed business requirements for payment systems involving **SWIFT, ISO 20022, NEFT, RTGS, and card-based transactions**.
- ③ Prepared **BRD, FRD, and functional specifications** for card workflow enhancements and dispute management processes.
- ③ Participated in the **governance, implementation, and change management** of payment messaging standards across business and technology teams.
- ③ Converted business requirements into **User Stories with acceptance criteria** and managed them in **JIRA/Azure DevOps backlog**.
- ③ Performed impact assessment and requirement mapping for migration from **legacy MT / SFMS / IFTAS messages to ISO 20022 MX messages**.
- ③ Performed **impact analysis for change requests and regulatory updates** related to Visa and Mastercard scheme rules.
- ③ Supported payment message mapping between **MT103 / MT202 and ISO 20022** messages such as **pain.001, pacs.008, pacs.009, pacs.002, pacs.004, camt.0053, camt.0054**.
- ③ Conducted stakeholder workshops and client discussions regarding **message changes, business impact, testing approach, and implementation strategy**.
- ③ Facilitated **backlog grooming, sprint planning, and requirement clarification sessions** with cross-functional teams.
- ③ Ensured smooth communication between **business, QA, and technology teams** throughout the SDLC lifecycle.
- ③ Managed **requirement traceability and documentation** to ensure audit and compliance readiness.
- ③ Coordinated **SIT, UAT, defect management, production implementation, and post-go-live support**.
- ③ Managed **project delivery, tracked risks, dependencies**, and ensured alignment with business timelines and regulatory expectations.

2. Work Experience – Business Process Lead (Business Analyst/Scrum Master) Tata Consultancy Services (2012 May – 2025 Mar)

Project 2: Client: – Bank of Ireland – UK - Business Analyst/Scrum Master (Jun 2019 – Mar 2025)

- ③ Led multiple payment and reconciliation projects involving **SWIFT, RTGS, NEFT**-equivalent payment processing, and **ISO 20022** message analysis.
- ③ Conducted workshops with stakeholders to gather requirements related to **payment processing, settlement, message validation, and reconciliation**.
- ③ Created detailed **BRD, FRD, use cases, message flow diagrams**, and functional specifications.
- ③ Analyzed existing payment message formats and supported migration planning toward **ISO 20022 compliant structures**.
- ③ Worked extensively on **SWIFT MT103, MT202, MT199** and mapped them to **ISO 20022** messages.
- ③ Supported trade finance message understanding including **LC and BG related message flows**.
- ③ Prepared business rules and validation rules for **inward and outward payments through RTGS and NEFT channels**.
- ③ Coordinated with **development, QA, and infrastructure teams** for message integration, API testing, deployment, and production support.
- ③ Used for requirement tracking, project management, reporting, and stakeholder communication.
- ③ Conducted **requirement gathering sessions with business stakeholders** to understand reconciliation and payment processing needs.
- ③ Prepared **BRD, FRD, process flows, and functional specifications** for banking applications.
- ③ Created and maintained **User Stories, acceptance criteria, and backlog items** in Jira.
- ③ Worked closely with development, QA, and product teams to ensure correct implementation of requirements.
- ③ Supported **payments reconciliation processes and transaction monitoring systems**.
- ③ Ensured **clear communication between business stakeholders and development teams**.

Project 3: Client: – Citibank - India | Manual Tester (Mar 2018 – Jun 2019)

- ③ Supported **merchant onboarding workflows** by analyzing business requirements related to merchant registration, payment configuration, and transaction processing setup.
- ③ Collaborated with business and technology teams to ensure **merchant payment gateway integration and configuration** were aligned with Visa and Mastercard standards.
- ③ Assisted in defining **functional requirements for merchant onboarding, KYC verification, and payment acceptance configuration**.
Worked with stakeholders to ensure **merchant profiles, settlement configurations, and dispute handling processes** were correctly captured in system requirements

Project 4: Client: Standard Chartered Bank – UK | Manual Tester (Mar 2017 – Mar 2018)

- Gained a comprehensive understanding of business requirements for **AML** and executed manual testing on web-based applications.
- Participated in Test Plan, Test Scenarios, Test Cases and Test data preparation.
- Identifying and reporting the defects using **JIRA** and follow up with the respective people until its closure. Raise the bugs in JIRA and Re-test resolved defect.
- Report testing status to QA Manager and Project Team weekly.

Project 5: Client: Mashreq Bank – Dubai | Cards Interchange Settlement, Disputes (Jan 2016 – Feb 2017)

- Experience in Credit card settlement posting in Consumer banking operations.
- Perform the Chargeback Acquiring Process Activities.
- Performed proper review and investigated disputed card transactions by collecting sufficient information to explore every opportunity to identify recover opportunities.

Project 6: Client: Citi Bank – Australia | Payments, Reconciliation, KYC & AML (May 2012 – Jan'16)

- Performed KYC Check, Signature Verification, Name Screening Check for A/C Opening Process.
- Processing of Foreign Currency Incoming & Outgoing Funds transfer request.
- Customer Debit and Credit will be verified, Fund Transfer such as MT103, MT202, MT191, MT192.
- Perform reconciliation of existing internal list entries and keywords used for transaction screening.
- Strong Knowledge of AML/CTF and Sanctions acquiring work.

3. Work Experience – Process Associate, Williams Lea (2011 Jan – 2012 May)

Client: Medicare Health – USA | HealthCare

- Reviewed and resolved claims by analysing documentation, calculating benefits, and issuing payments or denial letters.

4. Work Experience – Jr Process Associate, Dell Systems (2009 May – 2011 Jan)

Client: Athena HealthCare – USA | HealthCare

- Analysed and processed medical claims, ensuring compliance with insurance policies and regulations. Collaborated with legal teams to prepare documentation for claims disputes and settlements.

Key Achievements:

- Successfully led and supported multiple banking and payments projects across **Cards, SWIFT, Reconciliation, Merchant Onboarding, and Payment Systems**.
- Contributed to payment message transformation initiatives and supported **ISO 20022 readiness activities**.
- Managed multiple **stakeholders** and parallel workstreams in fast-paced delivery environments.
- Delivered projects on time through effective **planning, stakeholder communication, issue resolution, and team coordination**.
- Mentored **junior team members and supported business and technical teams** in understanding payment message standards and process flows.

Awards & Recognition

- Received **Spot Award** for successfully delivering critical payments and reconciliation projects within **tight timelines and with zero production impact**.
- Recognized by stakeholders and senior management for **excellent ownership, responsiveness, and proactive communication** during high-priority payment transformation initiatives.
- Appreciated for leading multiple parallel workstreams and ensuring successful delivery of complex banking projects involving **SWIFT, Cards, Reconciliation, and ISO 20022 readiness**.
- Received client appreciation for **quick issue resolution, strong stakeholder management, and consistent on-time delivery**.
- Awarded for mentoring team members and supporting cross-functional teams during **implementation, UAT, and production rollout activities**.
- Recognized for **driving process improvements, reducing manual effort, and improving reporting visibility through structured tracking and governance**.
- Appreciated for handling critical production issues and ensuring business continuity in **24x7 banking and payment environments**.
