

Shantanu Bharati

ML / AI Engineer with ~5 years of experience delivering production-grade, Azure-native ML solutions in enterprise environments. Strong background in TensorFlow/Keras, classical ML, and Azure Machine Learning, with hands-on delivery across recommendation systems, fraud & risk modeling, document intelligence, and LLM-based RAG systems.

Work Experience

Quantiphi | Sep 2022 - Present

AI/ML Engineer

LLM-powered Enterprise Knowledge Assistant (GenAI / RAG)

- Built a secure RAG-based knowledge assistant for semantic search and Q&A over internal documents for a Global Consulting Firm (Internal Enterprise Platform)
- Integrated Azure OpenAI Service with Azure Cognitive Search and enforced role-based access via AAD (Microsoft Entra ID)

ML Engineer

Personalized Recommendation & Ranking Platform (E-commerce)

- Built and deployed a two-stage recommendation system (candidate generation + ranking) using TensorFlow and classical ML, for a Large Retail / E-commerce Platform.
- Improved content and product relevance, achieving ~15% CTR uplift.
- Implemented batch inference pipelines and REST-based model serving on Azure infrastructure.

Fraud Detection & Risk Scoring Engine (BFSI)

- Developed fraud detection models using gradient boosting and neural networks to generate transaction risk scores for a Tier-1 Global Banking Client.
- Reduced false positives by ~20% while maintaining high fraud recall.
- Deployed and monitored models via Azure Machine Learning and Azure Monitor.

Cognizant Technology Solutions | Nov 2020- Sep 2022

Software Engineer (RPA Development)

Intelligent Document Processing & Automation Platform

- Delivered an enterprise-scale IDP solution for Credit Suisse using EyeShare for document ingestion and UiPath for workflow automation.
- Automated OCR-based extraction and routing of invoices, claims, and KYC documents.
- Orchestrated UiPath bots for validation, exception handling, and ERP updates, reducing manual processing by ~50%.

Skills

Technical Skills

- ML & DL: Supervised/Unsupervised Learning, Feature Engineering, Model Evaluation, Hyperparameter Tuning
- Deep Learning: TensorFlow, Keras, CNNs, LSTMs
- NLP & GenAI: RAG, Prompt Engineering, Text Classification, NER, LLM Integration
- Azure & MLOps: Azure ML, Azure OpenAI, Cognitive Search, Blob Storage, VMs, Azure Monitor,
- Programming: Python, Scikit-learn, XGBoost, Hugging Face, LangChain, SQL, Docker, Git

Certification

- Microsoft Azure AI Fundamentals (AI-900)
- CI/CD for Machine Learning – DataCamp
- Building powerful RAG pipelines - Udemy
- Introduction to MLFlow - DataCamp

Educational Background

Bachelor of Engineering-M.E.

MIT-COE, Kothrud, Pune
SPPU Pune | 2020

Diploma in Automobile Engineering

Government Polytechnic Nagpur
RTMNU Nagpur | 2017 | 88%
