PROFESSIONAL EXPERIENCE

Senior QA Engineer — Expleo Solutions India Pvt. Ltd.

Jan 2023 – Jun 2026

Project: Allianz Germany | Domain: Insurance

- Designed and maintained automated regression test suites in Tricentis **Tosca** across web and Windows application layers, improving test coverage by 40%.
- Built and managed **Tosca** Reusable Test Blocks (RTBs), recovery scenarios, and complex test structures to increase script maintainability and reuse.
- Executed **Tosca** Distributed Execution (DEX) via test event creation and registration, enabling parallel test runs across environments and reducing manual testing effort by 50%.
- Managed **Tosca** Test Data Services (TDS) to support dynamic, data-driven testing.
- Led test planning, requirement analysis, script design, execution, and defect lifecycle management using JIRA.
- Coordinated defect triage and resolution with cross-functional development teams to meet release timelines.

QA Engineer — Tata Consultancy Services, Pune

Sep 2018 – Jan 2023

Project: Aviva Life and Pension Annuity, UK | Domain: Insurance

- Performed manual testing across insurance sub-modules using functional, regression, system, integration, and user acceptance testing approaches.
- Owned requirement analysis, test scenario/case design, test data preparation, execution, and defect reporting.
- Used Master Craft DevPlus and JIRA for test management and defect tracking.
- Partnered with development and cross-team testers to resolve blockers through knowledge-sharing and coordination.
- Produced traceability matrices, test outcome reports, and daily/weekly defect reports.
- Collaborated with product owners on backlog management and continuous delivery of features.

Senior Process Associate — Tata Consultancy Services, Pune

Jul 2014 – Aug 2018

Project: Friends Life Insurance

- Flagged and resolved system/report errors, escalating IT tickets to prevent recurrence.
- Managed BaNCS application user access, including authorizations, team realignment, and account transfers.
- Analyzed functional specifications and provided resolution guidance to the customer service team.
- Authored configuration and workflow documentation reflecting ongoing process changes.
- Represented the team in pre/post-release IT forums, flagging release impact on existing processes.
- Created business permission documentation and clarified user access requirements.

Process Executive — Infosys BPO

Jan 2013 – Jun 2014

Project: BMO Overdraft | Domain: Banking

- Managed business and retail overdraft accounts for Bank of Montreal (US & Canada), coordinating with portfolio managers via email and calls.
- Processed cross-border fund transfers between Canadian and US accounts using daily foreign exchange rates.
- Delivered monthly presentations on productivity, quality, volumes, and escalations.
- Trained new associates and cross-team trainees on process procedures.
- Participated in financial transaction audits to maintain quality standards.

EDUCATION

Bachelor of Computer Applications — Shivaji University, G.A. College, Sangli

CERTIFICATIONS

- ISTQB Foundation Level
- **Tosca** Certified: AS1, AS2, TDS1
- TCS Domain Certification — Business Analysis & Manual Testing (Insurance Specialization)

AWARDS

- Received multiple “High Five” awards for contributions beyond grade level and driving increased automation adoption.
