Pursue opportunities in a distinguished organization that emphasizes professional development and innovation, while utilizing a strong background in PMO management and business analysis to drive impactful results.

CORE COMPETENCIES

- Strategic Resource Management
- Process Optimization Strategies
- Risk Management Frameworks
- Investment Banking
- Performance Metrics Development
- Data Governance Practices
- Change Management Methodologies
- Business Process Reengineering
- Operational Excellence Initiatives
- Cross-Functional Team Leadership
- Comprehensive Dashboard Development
- VBA Automation and Scripting
- IT Service Management (ITSM) Solutions
- Tableau Data Visualization

SOFT SKILLS

TECHNICAL SKILLS

Data Analysis, Tableau, VBA Macro, MS Access-Queries, MS-Office, Clarity PPM, ITSM (IT Service Management) TeamForge, SharePoint for Management Reporting

PROFILE SUMMARY

- **Amassed over 14 years of extensive experience 8+ years exp in Data governance with expertise in MIS Reporting Analytics**, showcasing a deep comprehension of dashboard reporting, process management, and the complexities involved in reporting at senior management levels.
- **Currently working as a PMO/Data Governance Analyst at BNP Paribas**, directing resource management efforts and refining operational processes to significantly boost productivity and efficiency across multiple projects.
- Cultivated a diverse skill set through various roles, including **project management, stakeholder engagement, and sophisticated data analysis**, while consistently achieving exceptional results in dynamic and fast-paced environments.
- **Demonstrated exceptional leadership capabilities** by cultivating a collaborative team atmosphere that promotes innovation & inspires team members to excel in their roles, while adeptly managing performance evaluations and goal-setting processes.
- Extensive knowledge of sophisticated reporting tools and methodologies, such as **CA Clarity PPM and SharePoint**, which play a crucial role in optimizing project management processes and improving data visibility.
- **Analyzed business processes, identifying inefficiencies** and proposing optimized solutions, driving operational improvements and cost reduction.
- **Managed project governance** by tracking progress, risks, and issues, providing regular reports to senior management to ensure timely decision-making.
- **Data Governance and PMO professional with extensive experience in data stewardship, risk data governance, Data Visa, data ownership, data quality, lineage, regulatory governance and stakeholder management across global financial-services environments.**
- **Recognized for exceptional stakeholder engagement skills**, having established strong relationships with cross-functional teams and senior management, which facilitated seamless communication and collaboration on project objectives.
- **Articulate, decisive leader with strong adaptability to detail-oriented approach** for managing high team performance through mentoring, training & developing a problem-solving attitude in the team.

CAREER TIMELINE

KEY HIGHLIGHTS

- **Professional Certifications:** Achieved Prince2 Practitioner, Scrum Master, and ITIL Foundation certifications, enhancing expertise in project management and IT service management.
- **Award Recognition:** Honored with the Project Star award twice during my tenure at Capgemini, acknowledging outstanding project performance and contributions.
- **Client-Facing Experience:** Extensive experience in client-facing roles, including direct engagement and onshore assignments at client sites, ensuring alignment with project objectives and stakeholder expectations.
- **Team Leadership & Performance Management:** Managed a team of 10 resources, overseeing goal-setting, performance reviews, ratings, and Personal Improvement Plans (PIPs) to drive individual and team success.
- **Project Planning & Administration:** Served as an administrator and project planner for CA Clarity PPM and SharePoint, ensuring efficient project tracking, documentation, and resource management.
- **Managed end-to-end Data Governance activities** across multiple risk domains, ensuring data ownership, stewardship, quality, lineage, controls, review and approval requirements were tracked through closure.
- **Coordinated with Data Owners, Data Stewards and Risk Stewards** to validate critical data elements, governance requirements, data-quality issues and control compliance, driving timely remediation of identified gaps.
- **Governed data ownership and accountability frameworks**, ensuring appropriate owners and stewards were assigned to critical data assets, applications and risk-reporting processes.
- **Performed data-quality and governance gap assessments**, identifying issues related to completeness, accuracy, consistency, ownership and metadata, and driving corrective actions with relevant stakeholders.
- **Managed Data Visa governance workflows**, coordinating steward reviews, approvals, exceptions and remediation activities while maintaining complete audit trails and governance documentation.
- **Maintained governance trackers and MI dashboards** covering data assets, stewardship status, approvals, data-quality issues, risks, dependencies and remediation progress for senior management reporting.
- **Supported data lineage and metadata governance activities**, ensuring critical data flows and reporting processes had appropriate ownership, documentation and traceability.
- **Partnered with Risk, Compliance, Technology, Business and Operations teams** to embed data governance controls into project and program delivery and ensure alignment with regulatory requirements.
- **Executive Reporting & Governance:** Led the preparation of complex top management reports, including governance decks, dashboards, data analysis, and risk assessments to guide strategic decision-making.
- **Process Automation & Efficiency:** Spearheaded process automation initiatives, reducing project timelines by 65% and enhancing overall operational efficiency.
- **Coordinated with Data Owners and Risk Stewards** across multiple risk domains to validate data governance requirements, resolve data-quality gaps, and obtain timely reviews and approvals.
- **Drove end-to-end governance tracking and escalation**, maintaining RAID and Data Visa trackers, monitoring critical-path activities, escalating overdue actions, and ensuring timely closure of risks, issues, and dependencies
- **PMO & Ad Hoc Reporting:** Played a key role in the PMO function for infrastructure management, developing and delivering ad hoc reports to meet business needs.
- **Process Migration & Optimization:** Successfully migrated reporting processes across teams, implementing automation solutions that eliminated 85% of manual Excel-based tasks using VBA macros.
- **MIS Process Integration:** Led the migration of MIS processes from the UK and US to Capgemini India, streamlining reporting workflows and improving data accuracy.

WORK EXPERIENCE

Since Jul'21: B BNP Paribas | Sr. PMO Manager – Data Governance | **Resource Management**

Tools Used: MS Excel, PowerPoint, SharePoint, Tableau

Responsibilities:

- **Headcount & Resource Management:** Directing the management of headcount files for onshore resources across multiple locations (Montreal, New York, San Ramon), ensuring accurate tracking and reporting of resource allocation.
- Drove Data Governance program governance across cross-functional stakeholders, establishing structured stewardship, approval, risk, issue and data-quality management processes to improve transparency, accountability and regulatory readiness.
- **P&L Analysis & Reporting:** Developing and validating Profit & Loss statements related to costs and headcount, leveraging advanced dashboard metrics to provide actionable insights for strategic decision-making.
- Acted as a **Data Steward**, coordinating with Risk Stewards and business stakeholders to ensure data governance standards, ownership, quality controls, reviews, and timely approvals were completed.
- Managed **end-to-end Data Visa activities**, coordinating with Data/Risk Stewards, tracking review requirements, following up on approvals, resolving gaps, and ensuring governance activities were completed within defined timelines.
- Owned and maintained **RAID logs** covering risks, assumptions, issues, and dependencies; facilitated regular reviews with stakeholders, drove action ownership, escalated critical items, and tracked issues through closure.
- **Overtime Metrics & Resource Allocation:** Managing overtime reporting and resource allocation to ensure efficient utilization while adhering to budget constraints.

- **Governance Reporting:** Preparing comprehensive monthly and quarterly governance presentations for senior management, including CFOs, to support informed decision-making and strategic initiatives.
- **Custom Reporting:** Designing & implementing tailored Excel reports to meet senior management's needs, enhancing data accessibility and usability.
- **Process Automation:** Leading initiatives to automate reporting processes, significantly reducing report generation time and improving operational efficiency.
- **Invoicing & Metrics Oversight:** Compiling invoicing metrics reports, ensuring accuracy submission to relevant stakeholders.
- **Stakeholder Engagement:** Fostering strong relationships with onshore teams, ensuring collaboration to achieve project goals.

Mar'21 – Jul'21: First Abu Dhabi Bank as Data Governance Analyst – Resource Management (Contract Role)

Tools Used: MS Excel, SharePoint

Responsibilities:

- **Resource Contract Administration:** Managed resource contracts, including generating Statements of Work (SOW) and Purchase Orders (PO), ensuring compliance with organizational standards.
- **Procurement Coordination:** Facilitated timely procurement by coordinating the submission of Purchase Requisition (PR) forms to the PMO and Finance teams.
- **SOW Collaboration:** Worked closely with the SVM team to develop accurate SOWs, ensuring alignment with project requirements.
- **Resource Database Management:** Maintained an up-to-date resource database, tracking contract start dates, PR, and PO numbers for effective reporting and resource allocation.
- **MIS Reporting:** Prepared monthly & weekly MIS reports, providing actionable insights into resource utilization and project progress.
- **Timesheet Reporting:** Generated Clarity timesheet reports from Clarity PPM data, ensuring proper tracking of resource time allocation.
- **Onboarding & Off-boarding:** Managed seamless onboarding and off-boarding processes for resources, ensuring smooth integration into and exit from project teams.

Aug'19 – Jan'20: HSBC Electronic Data Processing, Bangalore as PMO - AVP

Tools Used: CA Clarity PPM, SharePoint, TeamForge, MS Excel, MS Access

Responsibilities:

- **Risk & Issue Management:** Proactively managed project risks and issues, tracking and collaborating with key team members to ensure timely resolution and effective mitigation strategies.
- **Communication & Reporting Strategy:** Developed a comprehensive communication and reporting strategy to facilitate coordination between stakeholders and support progress reviews and decision-making.
- **Project Mobilization Support:** Assisted the Project Manager with mobilization activities, including resource onboarding and setting up Clarity plans for project tracking.
- **Program/Project Mobilization:** Supported program and project mobilization efforts, ensuring all resources and documentation were in place for successful project execution.

Sep'10 – Aug'19: Capgemini India Pvt. Ltd., Mumbai as PMO - Sr. Consultant – P4 Level

Tools Used: CA Clarity PPM, SharePoint, TeamForge, MS Excel, MS Access, BO, ITSM

Responsibilities:

- **Global Project Management:** Independently managed global projects, providing ongoing support to stakeholders and clients from the EU region, ensuring alignment with project objectives and timelines.
- **Data Analysis & Reporting:** Collected and analyzed data from multiple resources, providing clear and actionable insights to senior management to facilitate informed decision-making.
- **Risk Identification & Mitigation:** Proactively identified potential risks and assessed their impact on project outcomes, implementing mitigation strategies to minimize disruptions.
- **Status Reporting:** Prepared and distributed weekly and monthly project status reports, keeping stakeholders informed of progress, challenges, and key updates.
- **Performance Monitoring:** Focused on keeping projects within the green zone, ensuring actual performance aligned with forecasted values to guarantee project success.
- **Documentation Management:** Maintained comprehensive project documentation on SharePoint and TeamForge, managing access rights and permissions to ensure data security and proper access.
- **Stakeholder Collaboration:** Fostered strong relationships with stakeholders to ensure smooth process flow, contributing to the success of current and future projects.
- **Project Planning & Resource Allocation:** Managed project plans, dependencies, and baselines, ensuring optimal allocation of resources for project efficiency and success.

Dec'06 – Sep'10: JP Morgan Chase, Mumbai as GRC Data Guardian Analyst

Tools Used: MS Excel, MS Access, BO

Responsibilities:

- **Data Accuracy & Insights:** Ensured the accuracy of readership MIS data, providing valuable insights to management for informed strategy development and decision-making.
- **Entitlement Process Oversight:** Managed the entitlement process for the Investment Banking division, facilitating client access to third-party vendor research.
- **Led weekly Critical Path and RAID review meetings,** identifying delivery risks and dependencies, validating action plans, and driving corrective actions to keep project milestones on track.

- Experienced in Data Ownership, Data Quality, Data Lineage, Metadata Governance, Data Visa, Data/Risk Steward coordination, governance reviews, regulatory data controls, RAID and Critical Path management, MI reporting and executive stakeholder management.
- Prepared and presented **bi-weekly program status and MI reports** covering project progress, governance activities, transition/migration status, key risks, issues, dependencies, and management actions.
- Partnered with **Risk, Data, Business, Technology, and Operations stakeholders** to drive data governance initiatives, obtain steward reviews/approvals, resolve data-related gaps, and ensure compliance with governance requirements.
- Developed **executive-level PowerPoint presentations and governance decks** for senior management, highlighting program health, critical risks, key decisions, milestones, and required escalations.
- **Worked closely with Investment Banking stakeholders**, including sales teams, research analysts, market heads and global vendors, to identify process/data issues and drive timely resolution.
- Managed **MIS data accuracy, entitlement status and reporting processes** supporting Investment Banking stakeholders, improving data visibility and operational efficiency.
- Gained hands-on exposure to **banking data governance and business processes within an Investment Banking environment**, combining data accuracy, stakeholder coordination, reporting and process improvement.
- Maintained project plans and governance trackers, validated stakeholder progress updates, identified delivery gaps, and drove timely corrective actions across multiple workstreams.
- **Cross-Functional Collaboration:** Collaborated closely with sales teams, research analysts, market heads, and global vendors to identify issues and implement effective solutions.
- **Problem Identification & Solution Implementation:** Conducted thorough research to identify problems, propose solutions, and drive necessary procedural changes to enhance efficiency.
- **Process Optimization:** Streamlined readership metric & entitlement status reporting processes, significantly reducing processing time.

Feb'06 – Aug'06: Hewlett Packard Sales India Pvt. Ltd., Mumbai as Consultant
Tools Used: MS Excel

Jan'05 – Jan'06: ANM & Associates, Mumbai as Team Member – Auditor
Tools Used: MS Excel, MS Access

CORE COMPONENTS

- Data Governance & Stewardship
- Data Ownership & Accountability
- Data Quality Management
- RAID Management
- Critical Path Management
