Work Experience

Evolent India, Pune

Aug'21 – Jul'26

Senior Analyst (US Healthcare-Domain SME)

Key Result Areas:

- ② Governed end-to-end project lifecycles, including scope baselines, requirements, milestones, delivery health, risk mitigation, and governance across Medicare, Medicaid, and Commercial programs.
- ② Analyzed and validated claims data, adjudication rules, and critical attributes including CPT, HCPCS, ICD-10, modifiers, POS, and paid/denied statuses to ensure data integrity and business-rule compliance.
- ② Drove alignment across 30+ technical and business stakeholders while partnering with Product, Clinical, Operations, and Implementation teams to translate business needs into actionable solutions.
- ② Directed the design, deployment, and lifecycle governance of 50+ business-critical reports, dashboards, and KPI frameworks to strengthen operational visibility and management decision-making.
- ② Spearheaded Microsoft Copilot-driven automation initiatives across 20+ manual operational workflows, enhancing productivity, accelerating turnaround cycles, and reducing execution risks.
- ② Facilitated Agile ceremonies, requirement-grooming workshops, impact assessments, backlog discussions, and UAT activities in collaboration with global US-based project teams.
- ② Conducted data validation, reconciliation, exception analysis, and root-cause investigations to improve reporting accuracy, business-rule adherence, and operational reliability.
- ② Established functional documentation, process flows, onboarding frameworks, mentoring mechanisms, and audit-ready governance aligned with HIPAA and enterprise delivery standards.

Cotiviti India Pvt. Ltd., Pune

May'19 – Aug'21

2019-05 – 2021-08

Specialist - Payment Accuracy & Audit Track Lead

Key Result Areas:

- ② Performed end-to-end Payment Integrity and Payment Accuracy validation for Commercial healthcare claims across multiple audit programs, strengthening claim accuracy and audit effectiveness.
- ② Coordinated UHC and BCBS duplicate claim analysis and Rx audit tracks, ensuring timely workflow execution and effective identification of potential payment discrepancies.
- ② Governed clinical validation activities across ICD, CPT, NDC, and HCPCS standards, ensuring accurate interpretation and application of healthcare coding and audit rules.
- ② Investigated claim exceptions, conducted root-cause analysis, and identified potential payment leakage opportunities in collaboration with business stakeholders.
- ② Analyzed delivery pipelines, identified operational bottlenecks, optimized target parameters, and provided production support to improve audit workflow efficiency and quality.
- ② Developed master training curricula, SOPs, and training documentation for audit teams while serving as an internal core trainer to strengthen process consistency and knowledge capability.

Sciformix Technologies Pvt. Ltd. (Covance), Pune

Aug'17 – May'19

Junior Safety Data Analyst

Key Result Areas:

- ② Managed end-to-end case triage pipelines and workflow activities within ARISg and SCEPTRE safety environments, ensuring timely and structured case processing.
- ② Validated, monitored, and tracked critical Individual Case Safety Reports (ICSRs) to maintain data accuracy, case quality, and adherence to established processing standards.
- ② Monitored safety workflows and schedule checkpoints to ensure compliance with regulatory timelines and organizational pharmacovigilance requirements.
- ② Maintained audit-ready safety operations by ensuring case records, workflow checkpoints, and supporting documentation remained aligned with defined compliance parameters.
- ② Enforced standard operating procedures across safety case-processing activities, supporting consistent execution and adherence to defined quality benchmarks.
- ② Tracked operational workflows and critical case milestones, identifying potential deviations and ensuring timely corrective action to sustain workflow continuity and quality.
