

SREEKANTH ELAYIDATH

+91 - 9447170088 Mail-maalusree@gmail.com

Results-driven Senior Project Management professional with 15 years of experience delivering large-scale Banking, BFSI, FinTech, Healthcare, and Media technology programs across Agile and Waterfall environments. Targeting Project Manager / Senior Project Manager / Agile Delivery leadership opportunities, leveraging expertise in Agile transformation, stakeholder management, release governance, cross-functional leadership, and enterprise-scale delivery management.

Core Competencies

- Strategic Project Delivery
- Regulatory Compliance
- Risk Mitigation Strategies
- Agile Methodology Implementation
- Stakeholder Relationship Management
- Process Optimization Techniques
- Performance Improvement Initiatives
- Change Management Processes
- Team Development and Training
- Financial Services Operations

Education

- Master of Computer Applications (MCA)
IGNOU University | 2003
- Bachelor of Computer Applications (BCA)
Mahatma Gandhi University | 1999

Certifications

- ICAgile Certified Professional in Agile Coaching (ICP-ACC)
- Scrum Alliance Certified Scrum Master (CSM)

Personal Details

- Current Location: Ernakulam
- Date of Birth: 25 May 1979
- Languages Known: English, Malayalam, Hindi, Tamil

Profile Summary

- Providing strategic leadership for delivery governance and release management across Commonwealth Bank of Australia (CBA) engagements, enabling enterprise transformation, governance excellence, risk-controlled deployments, and alignment with business and regulatory objectives.
- Successfully led multiple high-impact Banking and Regulatory Transformation initiatives including ECDD & UMR AML Workflow Automation, PowerApps Modernization, FinTech Credit Risk Programs, Client Onboarding Platforms, Settlements Systems, and Contract Management Solutions for global clients including CBA, Société Générale, NBCU, and Hershey's.
- Recognized for delivering complex Enterprise Programs within strict timelines, quality benchmarks, and compliance standards by optimizing Agile Delivery Frameworks, streamlining Onboarding & Release Processes, improving Sprint Velocity through Data-Driven Planning, and managing large Cross-Functional Teams across distributed delivery models.
- Core expertise in Strategic Project Delivery, Agile Transformation, Release & Delivery Management, Stakeholder Management, Regulatory & Compliance Systems, Risk Mitigation, Capacity Planning, Scrum Governance, Production Deployment, Banking Operations, and Cross-Functional Team Leadership.
- Technically proficient in Jira, ServiceNow, Confluence, SDLC Hub, Power Builder & Oracle, while having managerial experience with PowerApps, Angular, Java, PostgreSQL, Apache Flink, Amazon Bedrock, IAM/SSO Integrations, BDD/TDD Frameworks, and Enterprise Application Modernization.
- Certified Scrum Alliance Certified Scrum Master (CSM) and ICAgile Certified Professional in Agile Coaching (ICP-ACC) with strong Leadership, Stakeholder Communication, Conflict Resolution, Mentoring, and Team-Building capabilities, enabling successful delivery of large-scale transformation programs in highly regulated enterprise environments.

Technical Skills

- Project & Delivery Tools: Jira, ServiceNow, Confluence, SDLC Hub, Power Builder, Oracle
- Agile & Delivery Methodologies: Agile Scrum Framework, Waterfall Methodology, Sprint & Backlog Management, Release Management, Production Release Governance

Managerial Skills

- Development & Technologies: Angular, Java, PostgreSQL, Apache Flink, PowerBuilder, Oracle, PowerApps
- Cloud & AI Technologies: Agentic AI Integration
- Infrastructure & Security: Identity & Access Management (IAM), Single Sign-On (SSO), Firewall & Server Infrastructure Coordination
- Testing & Quality Engineering: Capacity & Performance Testing (NFT)
- Enterprise Platforms & Modernization: Mainframe Modernization, Re-platforming & Application Modernization, CI/CD & Production Deployment Coordination
- Banking & Financial Systems: KYC & AML Workflow Systems, Referential Data Systems, Contract & Settlement Systems, Automated Workflow Systems

Work Experience

September 2016 – Present

Senior Project Manager | HCL Technologies

Commonwealth Bank of Australia (CBA) | Aug 2019 – Present

Role: Release Manager / Project Manager | Team Size: 32–54

- ⌚ Managed end-to-end resource fulfillment activities including demand planning, resource onboarding, workforce deployment, capacity management, budget tracking, and project staffing coordination for large-scale banking transformation programs.

Architected release governance frameworks and deployment processes for enterprise workflow systems processing 7,000+ daily transactions, ensuring compliance-driven production readiness.

- ⌚ Orchestrated delivery across 10–12 cross-functional squads spanning GenAI, PowerApps, CommSec, EDA, and Trade Finance streams while managing stakeholder alignment, infrastructure readiness, and NFT coordination.
- ⌚ Governed enterprise-scale production implementations including ECDD & UMR AML workflow modernization, SSO integrations, SDLC Hub change approvals, and seamless L2/L3 operational transition activities.

NBCU – Compass Re-platform (Schedules) | Sep 2017 – Jul 2019

Role: Scrum Master / Project Manager | Team Size: 30

- ⌚ Spearheaded modernization of a legacy client-server platform into a scalable Angular/Java multi-tier architecture, driving enterprise application re-platforming initiatives.
- ⌚ Enhanced Agile delivery efficiency through data-driven sprint planning, backlog prioritization, and issue governance, improving overall sprint predictability and execution quality.

Thryve Digital – Product, Sales, Client, Services (PSCS) | Sep 2016 – Aug 2017

Role: Technical Manager | Team Size: 23

- ⌚ Led technical delivery, code governance, and application modernization initiatives for healthcare partner platforms supporting business scalability and operational continuity.
- ⌚ Instituted structured risk mitigation, capacity planning, and skills matrix frameworks to strengthen delivery readiness, capability development, and engineering productivity.

August 2015 – March 2016

Project Manager | KBridge Solutions (Client: Infosys – Hershey's Account)

- ⌚ Facilitated Agile delivery and sprint governance activities for Product Change Management initiatives, optimizing sprint velocity through collaborative capacity planning and execution tracking.
- ⌚ Implemented issue management and escalation frameworks to proactively identify delivery bottlenecks, minimizing project delays and improving workflow transparency.
- ⌚ Coordinated with business and technical stakeholders to manage complex master data, financial change requests, and cross-functional delivery dependencies.

May 2010 – August 2015

Technical Manager / Scrum Master / Agile Delivery Lead | Société Générale Global Solution Centre

- ⌚ Directed cross-functional onsite/offshore engineering teams delivering critical banking applications, regulatory workflow systems, settlements platforms, and reference data solutions across Front, Middle, and Back Office operations.
- ⌚ Facilitated Agile transformation initiatives across multiple Scrum teams supporting TPS and SCOW platforms, driving Sprint Planning, Retrospectives, backlog governance, and Scrum-of-Scrums coordination.
- ⌚ Monitored sprint health, burn-down metrics, and delivery velocity through VersionOne while coaching teams and stakeholders on Agile best practices and backlog optimization strategies.
- ⌚ Executed end-to-end delivery management for Settlements-SSI programs, managing project planning, regulatory timelines, risk mitigation strategies, and capacity optimization initiatives.
- ⌚ Championed KYC compliance and onboarding workflow modernization by deploying the SCOW platform integrating regulatory verification controls, customer onboarding checkpoints, and referential data governance.
- ⌚ Strengthened operational efficiency by establishing technical capability matrices, removing delivery impediments, governing contract and settlement data mapping activities, and ensuring seamless feature integration across dependent systems.

Previous Experience

August 2008 – May 2010

Technical Lead | PSI Data Systems (Client: Société Générale)

November 2007 – August 2008

Senior Software Engineer | iGATE Global

June 2001 – November 2007

Senior Programmer | Cochin Computing Studio & Research Centre
