Bengaluru, Karnataka, India | +91-9618267128 | harshavadlamudi14@gmail.com

PROFESSIONAL SUMMARY

Senior Production Support Engineer and .NET Developer with 8 years of experience stabilizing enterprise .NET/C# platforms across Banking, Insurance, Healthcare, and Airlines. Combines hands-on development expertise (C#, ASP.NET MVC, Entity Framework, MS SQL, Kafka, JavaScript) with end-to-end ownership of Sev-1/Sev-2 incident response — from triage and cross-functional coordination through root cause analysis and permanent fixes. Manages the full ITIL Incident, Change, and Problem Management lifecycle in Jira and ServiceNow, consistently sustaining 96% SLA compliance while reducing recurring incidents by 30% through proactive, not reactive, resolution.

- Own Sev-1/Sev-2 escalations across 4 employers in regulated, high-availability domains (Banking, Insurance, Healthcare, Airlines)
- Coordinate cross-functional response across Engineering, Product, QA, and DevOps, driving RCA-based fixes that cut recurrence by 30%
- Run the full ITIL Incident, Change, and Problem Management lifecycle in Jira and ServiceNow, sustaining 96% SLA compliance
- Debug end-to-end across the application stack — C#, ASP.NET MVC, Entity Framework, MS SQL, Kafka, JavaScript — not just a single layer

CORE SKILLS & KEYWORDS

Production Support, Application Support, Product Support, L2/L3 Technical Support, Enterprise Software Support, Incident Management, Problem Management, Change Management, Root Cause Analysis (RCA), SLA Management, ITIL

ServiceNow, Jira, Ticketing Systems, Knowledge Base (KB) Documentation, SOPs

C#, .NET, ASP.NET MVC, Entity Framework, VB.Net, JavaScript, jQuery, HTML, CSS

MS SQL Server, Database Troubleshooting, Kafka, Application Debugging, Log Analysis

Azure, AWS, Azure DevOps, CI/CD, Windows, Linux, Application Monitoring, Performance Tuning

Regression Testing, Smoke Testing, Functional Testing, Release Validation, Production Deployment Support

TECHNICAL SKILLS

Programming Languages: C#, VB.Net

Frameworks & Tools: ASP.NET, MVC, Entity Framework, CI/CD

Web Technologies: HTML, CSS, JavaScript, jQuery

Database: MS SQL Server

Messaging: Kafka

Operating Systems: Windows, Linux

ITSM Tools: Jira, ServiceNow

Cloud Platforms: Microsoft Azure

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Dynamics 365 Fundamentals (MB-910)

PROFESSIONAL EXPERIENCE

Senior Production Support Engineer (L2/L3), GTT Data Solutions (formerly Antworks) — Bengaluru, India | Feb 2024 – Present

Supporting an AI/OCR-driven Intelligent Document Processing (IDP) platforms used by enterprise clients across Banking, Airlines, Healthcare, and Insurance. Technology Stack: C#, .NET MVC, MS SQL, JavaScript, Linux, Kafka. Ticketing System: Jira.

- Own Sev-1/Sev-2 escalations for an AI/OCR document processing platform serving Banking, Airlines, Healthcare, and Insurance clients, sustaining 96% SLA compliance across 40+ tickets/month
- Hands-on experience in US Healthcare Payer operations, supporting claims, eligibility, benefits, enrollment, and membership-related processes.
- Coordinate Engineering, Product, QA, and DevOps during critical incidents, cutting average MTTR 25%

- Convert root cause analysis (RCA) findings into permanent fixes, cutting recurrence of top issue categories 30%
- Manage Incident, Change, and Problem Management end-to-end in Jira, aligned to ITIL practice
- Debug application logs, MS SQL queries, and Kafka message flows across 15+ production environments
- Monitor application health, servers, and background services, resolving 50+ alerts/month with zero missed Sev-1 SLA breaches
- Provided production support for payer/health insurance applications, troubleshooting issues across claims adjudication, provider networks, premiums, and member services.
- Validate bug fixes pre-release via regression, smoke, and functional testing across 20+ releases
- Automate log-triage and health-check reporting, saving 6 hours/week
- Author and maintain 25+ knowledge base articles and SOPs, cutting resolution time for common issues 15%

Senior Software Engineer, Tech Mahindra — Hyderabad, India | Jul 2022 – Nov 2023

Project: Commercial Lines Automation System (CLAS) and Small Business (SMB) — insurance quoting, renewal, and policy endorsement platforms for Selective Insurance. Technology Stack: C#, .NET MVC, VB.Net, HTML, CSS, JavaScript, MS SQL.

- Developed and enhanced CLAS/SMB backend features using C#, VB.Net, and SQL Server in an Agile SDLC, supporting 50+ agents
- Resolved 30+ production bugs per quarter, improving policy-processing turnaround time 20%
- Managed source control and release coordination via TFVC across 10+ sprint releases

Systems Engineer, Tata Consultancy Services — Hyderabad, India | Jul 2017 – Jul 2022

Project: Humana — Corporate Web Systems. Technology Stack: C#, .NET, MS SQL.

- Supported US Healthcare payer applications covering claims processing, member eligibility, benefits, enrollment, and provider-related workflows, providing L2/L3 production support and troubleshooting.
- Handled production issues across payer/health-insurance processes including claims adjudication, membership, eligibility, benefits, provider networks, and premium-related workflows, with RCA and permanent resolution.
- Supported Humana's corporate web applications, resolving 60+ incidents/month via ServiceNow
- Managed incident, change, and problem management in ServiceNow, sustaining 95% SLA compliance
- Monitored and troubleshot application performance using Azure DevOps, Univiewer Console, and Dynatrace, reducing downtime 20%

Project: PepsiCo — R&D Web Systems. Technology Stack: C#, ASP.NET MVC, MS SQL.

- Owned production alerts as primary contact for infrastructure incidents affecting 5,000+ users, sustaining 99.5% uptime
- Delivered web application enhancements using C# and ASP.NET MVC, reducing recurring service requests 25%
- Monitored batch jobs and critical servers, catching 10+ issues/month before customer impact

EDUCATION

B.Tech in Electronics and Communication Engineering, Gitam University, Visakhapatnam, India | CGPA: 7.82/10 | Jun 2013 – Apr 2017
