- Led \$8M+ portfolio implementations for Card Payment and ATM in areas of Corporate and Retail Banking primarily working with MasterCard Schemes.
- **Global Portfolio Strategy:** Spearheaded multi-million-dollar **card transformation programs** launching 4 card products, ensuring compliance with PCI-DSS, ISO 20022, regulatory and MasterCard Schemes.
- **Delivery Management & Cost Optimization:** Managed cross-functional teams of 100+ members; achieved 30% cost savings in T&M engagements and establish PMO Center of Excellence to deliver agile ways of working.
- **RFP & Proposal Creation:** Developed comprehensive RFPs covering business cases, GTM strategy, pricing analysis, and contractual SOWs.
- **Card Payment and ATM Terminals:** Successfully delivered multiple Card Payment Product and ATM Terminal product launches ensuring compliance and smooth integration increasing customer footfall for the banks.
- **Agile Transformation & Velocity:** Orchestrated Agile Release Trains (ARTs) and CI/CD pipelines. Coached teams to improve delivery predictability by 25% and increased Sprint Velocity by 15%.
- **PMO Framework:** Developed PMO governance frameworks, improving portfolio visibility and partnered with C-level stakeholders to align strategic goals with execution roadmaps.
- **Product Delivery:** Led end-to-end rollout of 5 major products and enhancements for 40+ BFSI applications, including Card Issuance (NFC, EMV, and Tokenization), ISO 20022 and Insurance Platform Migration.
- **Data Migration & Infrastructure:** Directed high-stakes migration of 6 million customer records with zero downtime and migrated 500+ servers to modernized cloud infrastructure for banking and insurance business.
- **Turnaround & Governance:** Recovered distressed (RED) programs to GREEN. Managed RFPs, identify dependencies and driving them to closure.
- **Change Management:** Chaired Change Advisory Boards (CAB) and led training programs resulting in a 95% system adoption rate among users.
- **Financial Oversight:** Managed Portfolio & Financial Management by defining funding strategies, optimizing revenue streams, and overseeing resource utilization and cash flow. Experienced in managing both Fixed Price and T&M engagements.
- **Strategic Procurement:** Developed comprehensive RFPs covering business cases, roadmaps, GTM strategy, pricing, and contractual SOWs.
- **ERP Implementation:** Led end-to-end ERP projects across Finance and HR, ensuring seamless integration with existing business ecosystems.
- **Architecture & Analysis:** Facilitated workshops on capacity planning, technical architecture, API design, DEVOPS, CI/CD Pipeline and test strategy.
- **Cultural Leadership:** Managed diverse, cross-functional teams across 11 nationals & time zones, fostering a culture of collaboration and performance.
- **Team Enablement:** Upskilled teams on Product and Project processes, deliver best practices, improving maturity across tribes and functions.
- **Performance Management:** Conducted quarterly appraisals and created team development plans, resolving conflicts and align goals against KPIs.

CORE COMPETENCIES

Program and Product Lifecycle
Agile (SAFe, Scrum) | SDLC
RFP | New Product Launch
Product Release Roadmaps
Setup COE and Build Teams
Vendor Management | Data
Migration (ETL) | Cloud Strategy
Go-to-Market | Pricing Strategy
Value Creation | POC | Demo
Budgeting | Cost and P&L
UX Improvement | Analytics
User Validation and Requirements
User Stories | Theme and Epics
Release and Change Management
People Management | Training
KPI | Metrics | Improvements
Communication | Stakeholder
Decision Making and Tradeoffs
DevOps (CI/CD) | Digital Banking
Payment Gateways | Card Schemes
(Visa, Mastercard) | Interchange
Fees | Reconciliation, Authorization
& Clearing, Fraud Detection

IT SKILLS

Project Management Tools – MS Project, MSPS, JIRA, Planview, Visio, SharePoint, Remedy, RTC, Trello

Technologies – Adobe Tools, AngularJS, React, JSON, HTML5/CSS3, MVC, Java, .Net, PERL, Unix, **QA** – JMeter, Selenium, Jira, Browser Stack; **DB** - Oracle, SQL; **Middleware** – IBM Websphere, JBoss; **PenTest** - Metasploit, Rapid7; **RPA** – Automation Anywhere;

WORK EXPERIENCE

Oct'18 to Jul 2025

One Saving Bank – Program / Project Manager Bangalore COE.

Key Result Areas

Strategic Leadership & PMO Excellence

- PMO Setup: Built PM CoE, mentored juniors, reducing delivery efforts and time by 30%.
- Portfolio Management: Managed Strategy & IT portfolios, drove cross-functional collaborations and dependencies.

- Resource Management: Optimized utilization via capacity planning & training.
- Resilience: Transformed underperforming programs into efficient programs through strategic planning and execution.
- Artifacts: Delivered Charters, SOWs, Capacity Plans, Dashboards, for seamless execution and operations.

Digital Transformation & Technology

- Cloud Migration: Shifted legacy systems to cloud, upgraded 500+ servers, save infrastructure costs by 40%.
- Payments: Led ISO 20022 global payment standard implementation, mentor junior PM on stakeholder management.
- Integration: Executed multi-system migrations with dependencies, gap analysis & journey mapping.
- ERP: Streamlined workflows, implement Scrum and Devops process, reduced manual effort by 40%.
- CRM: Implemented CRM analytics to optimize pipeline visibility and forecasting.

Agile Transformation & DevOps

- Agile: Deployed Scrum methodology, set Agile metrics for leadership.
- DevOps: Built CI/CD pipelines with Azure DevOps & Jira.
- Velocity: Boosted sprint velocity 15%, lowered FTE costs and delivered on time.
- MVPs: Delivered early prototypes and established strategic architecture to reduce risks.
- Backlog: Defined prioritization models, managed roadmaps, led workshops & standups.

Operational Excellence & Automation

- Stakeholder Management: Aligns Business, Engineering and Operations stakeholders, and deliver cohesive outcome.
- RPA: Automated ticket handling processes in 3 weeks, reduced support tickets by 75%.
- BPM: Modernized BPM applications, optimized infrastructure costs, trained 700+ users, improved performance.
- Testing: Directed Penetration, Performance, Load, SIT, Regression, and UAT.
- Efficiency: Reduced sign-off times 50% through stakeholder and tailoring method, saved 20% costs & 40% schedules.
- Change Management: Achieved outcomes via agile adoption training & initiatives.

Feb'15 to Jul'18

Riyad Bank – KSA as Senior Portfolio Delivery Manager

Key Result Areas

Global Portfolio & Strategic Leadership

- Program Delivery: Directed \$8M+ card payment portfolios, led 70+ members, delivered 2 months early.
- RAID: Managed RAID logs across card and ATM portfolios, proactively resolving dependencies to achieve goals.
- Financial Oversight: Built \$5M+ worth business cases, optimized fund for operation and saved cost.
- Card Product: Prepaid Card Products Launched, Managed card scheme certifications, BIN Setup, oversaw transaction processing – reconciliation, interchange fee, reports and
- ATM Products: Introduced new ATM Terminal for Foreign currency dispense and revamp ATM Screens.
- Governance: Established agile governance & CXO dashboards for portfolio transparency.
- Stakeholder Management: Align Business, Engineering and Operations stakeholders, and delivers cohesive outcome.
- Vendor Management: Managed RFPs, solution design, pricing, ensuring vendor alignment.

Product Innovation & Digital Transformation

- Payments: Built card issuance platforms, revamped digital channels CX design, integrated 100+ APIs across channels.
- System Integration: Drove core banking system integration work streams, aligning technology teams on system readiness, UAT sign-offs, and cutover planning for new card products.
- Roadmap / Plan: Planned and orchestrated end-to-end planning with structured milestone tracking, risk registers, and governance cadences to ensure on-time delivery across complex, multi-team programs.
- Rapid Deployment: Delivered eKYC for 6M customers in 1 month via Scrum and successful negotiation with partner on pricing and building solid API architecture for future integrations.
- UX Strategy: Produced Prototypes using Design Thinking approach to enhance customer experience for digital payments.
- Agile & DevOps: Designed CI/CD for ATM channels, delivered MVPs to reduce risks.
- Grow Market: Collaborated with Marketing for go-to-market campaign launches, aligning campaign timelines with product readiness and ensuring consistent messaging across channels at launch.
- Business Development: Led a team of product managers, designers, and engineers, partner with sales and marketing to build new product, drive go-to-market strategy, and developed new business.

Data Governance & Operational Excellence

- ✚ Data Migration: Migrated customer records via automated ETL with zero downtime.
- ✚ Process Optimization: Streamlined reconciliation, cut incident tickets 60% in 2 months.
- ✚ Compliance: Secured approvals from regulators & card schemes, aligned with ISO 8583/20022/SWIFT/Card Schemes.
- ✚ Quality Assurance: Led SIT, UAT, Pentest, and Load testing for defect-free launches.

Additional Key Achievements

- Stakeholder Engagement: Secured executive/board sponsorship for multi-million initiatives.
- Innovation: Drove labs & hackathons, fostering continuous improvement.
- Global Expansion: Led international rollouts across multiple regions.
- Customer Focus: Launched VoC programs, boosted satisfaction scores.
- Vendor Contracts: Negotiated deals, saved 20% on long-term partnerships.
- Training: Trained 40+ members on fundamentals of project management.
