PROFESSIONAL EXPERIENCE

Project Manager / Specialist | Silicon Valley Bank, Bengaluru, India

Jul 2021 – Nov 2024

- Facilitated stakeholder workshops to capture business requirements for GRC platforms including Archer, Service Now GRC, and Metric Stream.
- Managed the Third-Party Risk Management (TPRM) program, including vendor due diligence, contract risk scoring, and periodic reassessments.
- Developed and managed comprehensive project plans, timelines, resource schedules, and milestones for successful migration execution.
- Conducted Steering Committee and project working group meetings, presenting key updates and decisions to senior leadership.
- Directed end-to-end IT infrastructure projects across global sites, including scope definition, risk assessment, and execution.
- Introduced automated reporting dashboards for project and capacity management, significantly reducing manual reporting time.
- Managed external vendors and implementation partners to ensure adherence to project timelines and SLAs.
- Led Enterprise Risk Management (ERM) activities for a Tier-1 global banking client, integrating risk identification and mitigation across KYC, AML, and client onboarding programs.
- Implemented third-party risk management framework to evaluate vendor risks across IT and compliance domains.
- Partnered with internal risk, legal, and compliance stakeholders to conduct RCSA (Risk and Control Self-Assessments) and maintain enterprise-wide risk registers.
- Identified process improvement opportunities to reduce turnaround time and operational risk.
- Delivered program milestones across Initiation, Planning, Execution, Monitoring, and Closure phases, including on boarding of impacted systems and downstream processing validation.
- Directed compliance transformation initiative including vendor risk assessments and third-party risk governance.
- Maintained RAID log to track risks including delays in stakeholder approvals and third-party dependencies.

Senior Analyst – Project Management & Due Diligence | HSBC Electronic Data Processing India Pvt Ltd

Jan 2017 – Jul 2021

- Delivered stakeholder communications, project status reports, and solution documentation in line with HSBC governance standards.

- Conducted scenario planning and risk modeling to analyze regulatory impact and business continuity during high-risk events.
- Managed cross-functional teams to ensure regulatory adherence (FATCA, GDPR) and timely closure of audit findings.
- Supported Workforce Management (WFM) team for scheduling and BAU operations; developed strong expertise in forecasting, AHT, shrinkage, overtime, and FTE planning.
- Applied strong data mining skills to analyze Production Environment Metrics and improve operational efficiency.
- Supported CRT testing team to validate tool credibility and functionality prior to launch.
- Gained deep domain knowledge in anti-money laundering (AML), sanctions, and market risks across private banking, retail banking, and wealth management.

Support Associate – KYC Reviews | Convergys India Pvt Ltd

May 2015 – Dec 2016

- Conducted KYC reviews for credit card customers and performed transaction monitoring in compliance with regulatory standards.
- Supported procurement processes for the Avaya product line within large-scale operations and supply chain workflows.
- Managed complex accounts with zero escalations and created second-level backup documentation for process continuity.
- Prepared aging bucket reports and presented findings to clients; contacted customers for missing KYC information and transaction queries.

EDUCATION

MBA – Finance | Monad University

B.Com | PES Degree College
