PROFESSIONAL EXPERIENCE

Change Manager

2021 – Sep 2025

Feb

Tata Consultancy Services (TCS) | Financial Services Clients – Goldman Sachs, Morgan Stanley

- Led end-to-end business change and adoption for complex financial services transformation programmes across global stakeholder groups and business units.
- Developed and executed Change & Adoption strategies covering change impact assessment, business readiness, stakeholder engagement, communications, training, adoption and post-go-live reinforcement.
- Established business and market readiness frameworks, including readiness checkpoints, entry/exit criteria, required deliverables and business signoffs across key transformation milestones.
- Conducted structured change impact assessments across people, processes, roles, controls and technology, translating impacts into actionable readiness and adoption plans.
- Established central change governance and coordinated local business teams, SMEs and change champions to drive consistent execution while accommodating market-specific requirements.
- Developed change playbooks, templates, guidance and minimum standards to provide a consistent approach to change delivery across teams and markets.
- Coordinated training and communications, including stakeholder messaging, training materials, user enablement and reinforcement activities; tracked completion and effectiveness.
- Defined and monitored adoption and readiness measures, identifying gaps and driving corrective actions to support transition to BAU.
- Led go-live readiness, coordinating Business, Operations, Technology, Risk and Compliance stakeholders and ensuring readiness actions and approvals are completed.
- Supported hyper care governance and post-go-live feedback loops, capturing adoption issues and coordinating remediation with relevant teams.
- Managed RAID, dependencies, risks, issues and escalations, providing options and impact assessments for executive decision-making.
- Ensured transformation activities met AML/KYC, regulatory and control requirements and maintain appropriate governance evidence.
