

UBAIDUL HAQUE

Regulatory Reporting & Payments | FX & Treasury Settlements

Bangalore, India | +91 9611898552 | Ubaidhaque001@gmail.com

PROFESSIONAL SUMMARY

Business Execution professional with 9+ years in financial services, specializing in regulatory reporting (EMIR, MiFID II, CASS), payments, and FX/treasury settlements across capital markets. Proven track record leading EMIR trade and collateral reporting, MiFID II transaction reporting, and cross-jurisdiction back-reporting on Colline, while driving ISO 20022 (MX) migration and SWIFT messaging (MT202, MT303, MT900/910, MT940/950, MT540, MT599) standards adoption. Delivered \$1.4M in cost savings and 2,600+ hours saved annually through Alteryx automation, with hands-on expertise executing FX spot settlements, clearing payment exceptions within strict cut-off windows, and leading teams through client account transfers, cash payments, and funding across the full trade and payment lifecycle.

AREAS OF EXPERTISE

Regulatory Reporting

- Lead EMIR trade and collateral reporting, MiFID II transaction reporting, and cross-jurisdiction back-reporting, validating data quality to meet regulatory deadlines and audit standards.
- Perform CASS client money and custody asset reconciliations, and maintain CASS, REMS, and RCSA operational risk frameworks to prevent AML/ASL breaches.
- Partner with Technology, Legal, Compliance, and Risk teams to investigate and remediate reporting breaks across Colline and downstream regulatory reporting platforms.

Payments

- Lead a team accountable for client account transfers, cash payments, and funding across the full trade and payment lifecycle for a high-volume securities function.
- Own workflow tracking, queue management, and exception management, resolving escalated, time-sensitive payment issues against strict cut-off timelines.
- Delivered daily overdraft (OD) position reporting on client accounts, ensuring SLA/KRI payment commitments were met, and reported \$1M+ overdraft positions across APAC.

ISO 20022 & SWIFT Messaging

- Drove ISO 20022 (MX) adoption initiatives alongside Alteryx automation, saving 2,600+ hours annually and improving nostro/trade reconciliation accuracy.
- Completed internal training on ISO 20022 (MX) Messaging Standards and SWIFT Payment Processing at JP Morgan Chase & Co.
- Working knowledge of SWIFT MT202, MT303, MT900/910, MT940/950, MT540, and MT599 message types across payment, treasury, and settlement workflows.

FX & Treasury

- Executed FX settlements — buying and selling currencies at spot rate per client instructions — within currency cut-off windows, clearing cash exceptions on TLM and ELM.
- Funded corporate action events and corrected client books through FX adjustments arising from internal or market-driven settlement errors.
- Use Colline for Initial Margin (IM) and Variation Margin (VM) collateral management, supporting regulatory reporting aligned with EMIR margin and collateral obligations.

Institutional Client Onboarding

- Coordinate across Front Office, Operations, Compliance, Legal, Credit, Documentation, Collateral, and Client Account teams to ensure all prerequisites are completed prior to trading commencement.
- Track KYC/AML documentation, credit approvals, and account set-up requirements end-to-end, escalating outstanding items to keep onboarding timelines on track.
- Act as the central point of contact between internal stakeholders and clients, resolving onboarding blockers to accelerate account activation and trade readiness.

CORE SKILLS

Trade & Capital Markets: Securities & trade lifecycle, client onboarding, custodial & settlement operations, GL reconciliation (Nostro, Trade, Receivables), Letters of Credit, sanctions screening

Platforms: Colline (Initial & Variation Margin), TLM, ELM, GXM, WCM, ExcApp, CCREM, SAP, SDAC, AMS

Analytics & Automation: Alteryx automation, Power BI, Tableau, Advanced Excel, MIS reporting

Leadership: Team leadership & coaching, workflow & queue management, cross-functional collaboration, process improvement

PROFESSIONAL EXPERIENCE

Execution Lead – Regulatory Reporting, Payments & Reconciliation

2022 – Present

JP Morgan Chase & Co., Bangalore

- Lead a team accountable for client account transfers, cash payments, and FX funding across the full trade and payment lifecycle, ensuring accurate, timely settlement for a high-volume securities function.
- Support EMIR trade and collateral reporting, MiFID II transaction reporting, and cross-jurisdiction back-reporting of trades and positions, validating data quality to meet regulatory deadlines and audit standards.
- Partner with Technology, Legal, Compliance, and Risk teams to investigate and remediate reporting breaks and discrepancies across Colline and downstream regulatory reporting platforms.
- Partner with Client Services, Sales, Product, and Finance leadership to resolve cross-functional settlement and reporting issues and deliver measurable client outcomes.

Senior Financial Analyst – Regulatory Reporting, Payments & Reconciliation

2015 – 2022

Northern Trust, Bangalore

- Performed CASS client money and custody asset reconciliations and EMIR trade/collateral reporting checks, investigating regulatory breaks and maintaining audit-ready evidence for compliance reviews.
- Operated within a real-time back-end settlement processing team, ensuring daily payment instructions from investment managers and clients were accurately executed and settled across required markets.
- Funded corporate action events and corrected client books through FX adjustments arising from internal or market-driven settlement errors.
- Processed and approved foreign exchange deals and cash settlements, including repatriation of non-trade transactions to base currency within scheduled cut-offs.
- Reviewed, audited, and monitored cash and payment transactions — trades, income, corporate actions, redemptions, journals, fees, and overdrafts — across global client accounts, in line with Investment Manager Account Profile (IMAP) instructions.
- Generated and distributed Daily, Weekly, and Monthly volume reports, ERM summaries, and OD reports within scheduled timeframes.

Intern – Trade Finance

Jan 2015 – Jul 2015

Deutsche Bank, Bangalore

- Supported Letters of Credit, import/export bill booking, and discrepancy handling for Hong Kong and Singapore branches; performed first-check sanctions screening, Hot Scan, and Embargo filtering.
- Prepared applicant notification messages and coordinated with dual-check teams to ensure documentation accuracy ahead of regulatory and compliance review.

KEY PROJECTS & IMPACT

- \$1.4M in cost savings delivered via CSD charges optimization through detailed reconciliation analysis.
- 2,600+ hours saved annually via Alteryx automation across reconciliation, payments, and regulatory reporting workflows, improving data quality and turnaround time in settlement processes.
- Regulatory reporting quality initiative: strengthened CASS client money reconciliation and EMIR trade/collateral reporting controls, reducing unresolved regulatory breaks and improving audit readiness.

PROFESSIONAL DEVELOPMENT

- Internal training: ISO 20022 (MX) Messaging Standards and SWIFT Payment Processing — JP Morgan Chase & Co.
- Internal training: Alteryx Designer for Reconciliation Automation — JP Morgan Chase & Co.

EDUCATION

Bachelor of Business Management (BBM) — Business Accounting & Finance

CMR Institute of Management Studies | 2015
