Rewards & Recognition

IQVIA Platinum Impact Award

The Award states that - Vagarth, you have demonstrated great initiative to grow your knowledge and skill set of Workfront. Not just to develop your own skill set, but by recognizing the growing need of Digital Enablement moving in this direction. Your integrity in which you approach all assigned projects is unmatched, and all of those working with you on the Operations and Workfront side of things, are extremely appreciative of all that you continue to bring to the team. Thank you.

IQVIA Silver Impact Award 2

The Award states that - "Vagarth coordinated training with the Account Coordinators on the email side that would be transferring the count requests from Workfront over to the Product Delivery team, and he continues to meet with this group weekly to identify areas for improvement, and to help resolve concerns. He's done all of this with limited direction from his managers, and has delivered a process to be adopted across Digital Enablement. His ownership and dedication to delivery is outstanding, and well deserving of recognition."

IQVIA Silver Impact Award 1

The Award states that - "Congratulations and thank you to the cross-functional team who recently completed an incredibly time-constrained platform transition that will ensure our client can maintain their triggered email programs for the remainder of the calendar year. Acadia needed IQVIA's support to transition its triggered email program to the new, temporary platform. This effort began early September, and with a campaign launch planned on October 2, 2023, what seemed an impossible task in an impossible timeline. Despite the challenges with learning and unraveling the details of each platform, the program and the client's needs, the team was able to successfully launch on time. Thank you and congratulations on an amazing team effort!"

Award for Exceeding Targets

This award is presented to consultants having great billables while having more than 80% utilization and having a CSAT score of 5/5 while delivering 50+ Qualtrics CX Implementation Projects and converting them to managed services bringing additional revenue thus increasing average CLV.
