

VAISHNAVI KATKAR

PROFESSIONAL SUMMARY

Financial Analyst

Results-driven Financial Operations Analyst with 4+ years of experience within financial markets and OTC derivatives operations, supporting critical post-trade activities in fast-paced, high-volume environments. Strong understanding of trade lifecycle management, operational risk, controls, and regulatory requirements, with a consistent focus on accuracy, risk mitigation, and timely execution. Experienced in partnering with internal stakeholders, clients, and counterparties to resolve operational issues, strengthen processes, and maintain effective controls. Demonstrated ability to analyze complex operational challenges, identify process improvement opportunities, and contribute to a strong control environment. Recognized for analytical thinking, attention to detail, effective stakeholder management, and a commitment to operational excellence.

SKILLS

- OTC Derivatives Operations
- Trade Settlement
- Cash & Position Reconciliation
- Trade Affirmation & Confirmation
- Equity Settlements
- TRI-Resolve Platform

PROFESSIONAL EXPERIENCE

FINANCIAL OPERATIONS ANALYST 10/2024 to 01/2026

Citco Shared Services India Pvt. Ltd

- Managed affirmation and confirmation of a wide range of OTC derivative products, including complex swap structures, ensuring accurate trade capture and effective risk mitigation.
- Managed cash flow processing (CAM) within defined timelines, ensuring zero cutoff breaches and seamless fund availability.
- Monitored and executed time-sensitive cash movements in high-volume environments while minimizing operational risk and maintaining accuracy.
- Oversaw timely settlement of cash flows for equity and OTC trades in bilateral markets, ensuring compliance with counterparty agreements.
- Performed portfolio reconciliations using TRI-Resolve, maintaining high trade-matching accuracy and minimizing breaks.
- Acted as a liaison between counterparties and internal stakeholders to investigate and resolve trade discrepancies and support seamless post-trade operations.
- Managed end-to-end client wire payment processing through the CITCO Treasury platform, including SWIFT MT103, MT202 and MT101 and ISO 20022 pacs.008 and pacs.009 transactions.
- Executed bulk wire setups to support high-volume transactions while maintaining operational accuracy and regulatory compliance
- Maintained and updated Standard Settlement Instructions (SSI) across multiple currencies to support seamless transaction processing.
- Prepared End-of-Day (EOD) reports summarizing transactions, balances, and discrepancies for management review and decision-making.

- Recognized as Employee of the Month for achieving the highest wire volumes and consistently contributing to operational excellence.
- Validated SSIs and settlement instructions before trade release to minimize settlement failures.
- Prepared and reviewed daily settlement and exception reports for operational oversight.
- Managed the end-to-end trade lifecycle from trade capture and enrichment through confirmation/affirmation, settlement, reconciliation and exception resolution, ensuring accurate and timely processing within market and client-specific cut-offs.
- Supported month-end closing activities by reviewing outstanding trades, settlement exceptions, cash balances and reconciliation breaks
- Managed end-to-end equity trade settlement lifecycle covering trade capture, confirmation/affirmation, settlement instruction validation, settlement and post-settlement reconciliation.
- Processed equity buy/sell transactions across relevant markets, ensuring timely settlement within market cut-off timelines.

SENIOR ASSOCIATE 04/2021 to 07/2024

State Street Service Private Limited

- Executed trade processing and settlement for multiple management companies across purchases, redemptions, exchanges, transfers, OTC, and ETF trades.
- Authorized and released trades to market while ensuring accuracy, adherence to operational controls, and compliance with settlement timelines.
- Managed end-to-end trade settlement activities, including FOP/DVP follow-ups, AML validation, and resolution of failed trades.
- Set up multi-currency payments using SWIFT MT54x messages for T+1 and future value dates in line with market cutoffs.
- Performed daily cash and position reconciliations, investigated breaks, and resolved discrepancies within defined reconciliation windows.
- Prepared and maintained Standard Operating Procedures (SOPs) and conducted quality checks to support consistent operational processes.
- Managed client and counterparty communications to investigate and resolve operational queries efficiently.
- Trained junior associates on new project activities and independently executed task migration with no escalations while following established best practices.
- Received Spot Awards on two occasions for outstanding commitment, initiative, and contributions to process growth.
- Recognized for high speed and accuracy in reconciliation processes, supporting timely and error-free delivery.
