Professional Summary

Results-driven **Software Engineer** with **3+ years** of experience in designing and developing **cloud-native SaaS** applications using **Java, Spring Boot**. Skilled in building **RESTful APIs**, implementing **CI/CD** pipelines, and optimizing **SQL queries**. Strong background in **unit testing, Agile methodologies**, and **performance tuning**. Passionate about writing clean, maintainable, and scalable backend systems.

Skills Summary

Technical Skills

- **Languages:** Java (Java 8 and above)
- **Backend:** Spring Boot, Spring MVC, Hibernate, JPA, Rest APIs, Microservices
- **FrontEnd:** Angular, HTML, CSS
- **Database:** Mysql, SQL Server
- **Testing:** JUnit, Mockito, SonarQube
- **Tools:** Git, Maven, Jenkins, Swagger, Log4j, IntelliJ, Eclipse, VS Code, Postman, MySQL Workbench

Soft Skills : Communication, Team Collaboration, Time Management, Attention To Detail, Problem Solving

Experience

Sen-Sei Technologies Pvt Ltd

Bengaluru , India

Software Engineer

July 2022 - Present

- Designed and developed **cloud-native** applications using **Java, Spring Boot** ensuring scalability, high availability, and performance optimization.
- Built **REST APIs** for core modules including **programs, donors, and beneficiaries**, enabling seamless integration across services.
- Optimized **MySQL queries**, resulting in **up to 30% faster response times** and improved backend performance.
- Led **Angular front-end development** for dynamic forms and dashboards, ensuring responsive and user-friendly UIs.
- Collaborated with cross-functional teams in **Agile/Scrum** environments, actively participating in sprint planning, daily stand-ups, and retrospectives to deliver projects on time.
- Applied **OOP principles**, design patterns, and exception handling to develop reusable, easy-to-maintain code, adhering to best practices.
- Leveraged build tools like **Maven** for build automation and **Git** for version control, ensuring efficient development workflows and CI/CD integration.
- Developed front-end components using **Angular, HTML, CSS, and TypeScript**, ensuring responsive and user-friendly interfaces.
- Ensured code quality and adherence to coding standards using tools like **SonarQube**
- Worked with **Redmine** for project management and tracking, ensuring timely delivery of features and bug fixes.

Internship

Sen-Sei Technologies Pvt Ltd

Bengaluru , India

Software Engineer Intern

March 2022 - June 2022

Industry Project Understanding - Acquired in-depth knowledge and hands-on experience with core JAVA principles, ORM frameworks, RDBMS, and a comprehensive suite of software tools

Projects

Self Assessment Tool (SAT)

- Independently led development of customizable assessments and an interactive dashboard to track evaluation metrics and key performance indicators.
- Designed an dashboard with real-time insights, enabling users to track assessments and key performance.
- Integrated automated scoring and detailed comparison reports, providing insightful analytics for performance.

Goonjan

- Implemented various modules like Beneficiary, Donor, Program management enhancing transparency and accountability.
- Implemented role-based access control, ensuring secure and restricted data access for different user roles.
- Integrated real-time reporting and analytics, enabling data-driven decision-making for NGOs.
- Optimized database performance, ensuring faster query execution and seamless data retrieval.

Education

East Point College of Engineering and Technology, Bengaluru

- Bachelor of Engineering (Information Science and Engineering)
