Core Competencies

Enterprise Learning & Training Strategy | Quality Governance | Capability Transformation | Leadership Development | Knowledge Management | Performance Enablement | Learning Analytics | Operational Excellence | Change Management | Executive Stakeholder Management | AI-enabled Learning | Lean Six Sigma | Value Realization & ROI Optimization

Work Experience

Senior Manager – Enterprise Learning & Training, Quality & Performance Transformation

Jul 2016 – Apr 2026

Tata Consultancy Services

- Led an enterprise Learning & Training, Quality & Performance Transformation function supporting a workforce of 400+ employees across Europe, EMEA and APAC, partnering with Senior Directors and Vice Presidents to drive capability transformation, governance and operational excellence.
- Designed and scaled enterprise Learning & Quality frameworks supporting multiple global service engagements by integrating onboarding, quality governance, knowledge management and performance analytics.
- Developed enterprise learning and capability strategies aligned with business transformation objectives, strengthening leadership capability, operational excellence and workforce readiness across global operations.
- Accelerated workforce readiness by 85% by building capability development strategies that combined standardized onboarding, structured learning journeys and AI-enabled learning automation.
- Improved workforce utilization by 25% through targeted capability interventions, cross-skilling initiatives and data-driven performance improvement programmes that enhanced operational performance and customer experience.
- Designed leadership development frameworks and coaching models that strengthened managerial capability, improved team effectiveness and supported succession readiness across leadership pipelines.
- Established enterprise governance frameworks for quality assurance, calibration, SLA compliance and performance reviews, improving operational consistency across multi-region delivery teams.
- Led enterprise knowledge management initiatives covering content strategy, governance, continuous improvement and training effectiveness measurement to strengthen organizational capability.
- Partnered with Senior Directors, Vice Presidents and business leaders to align training, quality and capability priorities with strategic initiatives and organizational transformation goals.
- Enabled executive decision-making through business analytics, KPI dashboards and performance insights that proactively identified capability gaps, quality risks and operational improvement opportunities.
- Supported commercial growth through strategic pricing analysis, commercial rate revisions and RFP solutioning by providing operational insights, cost-to-serve analysis and scalable operating model recommendations.
- Led Lean Six Sigma transformation initiatives delivering measurable improvements in quality, operational efficiency, cost optimization and organizational capability.

Manager – Learning & Training, Quality & Centre of Excellence

Apr 2012 – Jul 2016

Tata Consultancy Services

- Established and scaled an Enterprise Learning & Capability Centre of Excellence (CoE), leading a team of 15 Learning & Quality professionals supporting 40+ delivery teams across 6 business units, enabling capability development for over 10,000 employees serving 20+ global clients in 60+ countries.
- Designed enterprise capability frameworks covering onboarding, curriculum architecture, knowledge management and continuous learning, accelerating workforce readiness and improving service quality.
- Developed governance frameworks, including SOPs, quality scorecards, executive dashboards and performance standards that improved process consistency and operational governance.
- Introduced analytics-driven quality governance, leveraging operational metrics and root cause analysis to improve customer satisfaction, reduce service defects and enable proactive performance management.
- Partnered with business, transition and client leadership teams to identify capability gaps, embed governance controls and improve workforce productivity across new and existing business engagements.
- Led Lean Six Sigma transformation initiatives, reducing operational costs by 15% while improving delivery efficiency by 25% through process optimization and continuous improvement.
- Received the Best Portfolio Management Award (2016) in recognition of excellence in enterprise capability governance, portfolio management and operational performance.

Team Manager - Operations

Jan 2009 - Apr 2012

Tata Consultancy Services

- Led multidisciplinary operations teams, embedding structured performance management, quality governance, and workflow optimization practices.
- Introduced coaching and performance review mechanisms that strengthened capability development and improved operational effectiveness.
- Partnered with business stakeholders to enhance reporting, governance visibility, and continuous improvement across customer operations.

Subject Matter expert & Process Trainer

Aug 2007 - Dec 2008

Citigroup Global Services

- **Drove Performance** in new hires by training **150+** employees, boosting process adherence by **25%**.
- Developed strategic initiatives that helped resolve issues, increasing operational efficiency by **17%** across **3** business units.
- Identified training gaps through **data analysis**, creating modules that enhanced employee performance **14%**.

Signature Transformation Initiatives

Enterprise Learning Transformation

Built an AI-powered consultation platform to improve coaching effectiveness, governance visibility, and performance management.

Enterprise Capability Transformation

Established a Learning & Quality Centre of Excellence that standardized governance, knowledge management, and capability development across BFSI operations.

Lean Transformation

Achieved Gold Certification at the CII National Lean Competition through a cross-skilling and workforce optimization platform.

Customer Experience Transformation

Improved collections recovery by 30% and customer satisfaction by 15% through analytics-led process redesign.

Education

Bachelor of Business Administration

2022 - 2025

Amity University

Master of Science in Data Science and Artificial Intelligence (Pursuing)

Jan 2026 - Present

BITS Pilani
