

VIKAS PEDNEKAR

Head IT | Senior Tech Infrastructure Program Manager | Cybersecurity & Risk Governance Leader
+91 7208564975 | vikasspednekar@yahoo.co.in | Mumbai | www.Linkedin.com/vikasspednekar

PROFESSIONAL OVERVIEW

- Strategic Senior IT Infrastructure & Technical Program Manager with over 23 years of experience driving enterprise-scale transformation across Banking, Pharmaceuticals, and IT Services. Proven expertise in leading complex global programs spanning cloud, datacenter migration/optimization, infrastructure modernization, and database transformation across Windows/Linux environments.
- Strong focus on cybersecurity governance, IT risk management, and regulatory compliance, with hands-on experience in RCSA, ITGC controls, and control testing aligned to frameworks such as NIST, COBIT, and NFR.
- Demonstrated success in delivering multi-million-dollar programs, achieving 99.9% system availability, and driving significant cost optimization and operational efficiency.
- Recognized for thriving in high-pressure environments, influencing senior stakeholders, and consistently delivering mission-critical initiatives on time with strong governance and risk control.

CORE SKILLS

- IT Service Management (ITIL)
- Enterprise IT Service Delivery
- IT Infrastructure Transformation & Modernization
- Incident, Problem & Change Management
- Data Center Migration & Consolidation
- Automation & Process Optimization
- IT Financial Management (Budgeting, Cost Optimization)
- Global Program Delivery and Governance
- Technical Project Management
- Stakeholder Management
- Vendor & Third-Party Risk Management
- Strategic Planning & Roadmap Execution
- Agile, Waterfall & Hybrid Delivery Models
- Identity & Access Management (IAM, PAM)
- Cybersecurity Governance
- IT Risk Management
- IT Audit Remediation
- Regulatory Compliance
- Controls Lifecycle Management
- Vulnerability Management
- SIEM, Threat Management

TECHNICAL SKILLS

- Azure Cloud
- VMWare
- Virtualization
- Windows
- Linux
- Active Directory
- Oracle
- SQL
- SCCM
- SCOM
- MS Project, Clarity
- Power BI
- JIRA
- SAN
- NAS
- Collibra
- Tanium
- Tenable
- Disaster Recovery

CERTIFICATIONS

- CISM – In progress
- Cybersecurity (CC) Jan 2026 - ISC2 ID: 3047267
- SC-100: Microsoft Cybersecurity Architect
- AZ-500: Azure Security Engineer
- AI-900: Azure AI Fundamentals
- AZ-900: Azure Fundamentals
- Project Management Professionals (PMP) Jul 2011 - PMI ID: 1940716
- ITIL v3 Foundation Oct 2008 - EXIN ID: EXIN037757
- Six Sigma Yellow Belt Oct 2012
- Microsoft IT Professional: Microsoft Exchange Server 2007
- Microsoft System Administrator in 2007 -MCP ID: 2832986

WORK EXPERIENCE

Associate Director – Technical Program Manager

UBS (Union Bank of Switzerland), Mumbai

Jul 2018- June 2026

Achieved measurable outcomes including ~20% cost reduction and improved security and compliance posture, aligning IT delivery with business and regulatory requirements.

- Leading and executing US Datacenter consolidation and optimization; with decommissioning of end-of-life application suite, end of life H/W, designing the application infrastructure, Network gateway migration - modernization, Virtualization of physical servers, migration of market connected applications
- Driving Digital Transformation and Enterprise Architecture initiatives, achieving ~20% reduction in carbon footprint through infrastructure optimization and sustainable technology adoption.
- Spearheaded enterprise datacenter migration and consolidation (3500+ servers, 260+ applications) for UK region in a regulated banking environment, enhancing scalability, resilience, and operational efficiency
- Executed Active Directory domain consolidation including OU hierarchy redesign, GPO standardization, trust optimization, and identity governance controls.
- Delivered database modernization initiatives including Oracle upgrades (11g–19c), SQL Server/Sybase to PostgreSQL migration
- Implemented network transformation from legacy infrastructure to high-speed fiber architecture, optimizing latency, bandwidth, routing, and load balancing
- Implemented Identity & Access Management (IAM) solutions and Privileged Access Management (PAM)
- Led Technology Risk & Compliance activities (1LoD) including ITGC controls, risk assessment, control testing, audit remediation, and regulatory compliance (NFR, COBIT, NIST)
- Managed RAID logs (Risk, Assumptions, Issues, Dependencies), ensuring proactive risk mitigation and delivery governance
- Managed vulnerability and security operations using Tanium and Tenable, including patch validation, vulnerability scanning, and remediation tracking
- Delivered Data Governance initiatives using Collibra and Informatica, including data quality, metadata management, and data lineage controls
- Developed Power BI / Tableau dashboards for KPI tracking, risk reporting, and executive governance
- Leading global teams of 80+ across multi-region delivery environments
- Managed global vendor ecosystems including Wipro, Infosys, and OEM partners, delivering large-scale infrastructure, cloud, application, and security programs.

Manager – Project Implementation

Symphony SUMMIT, Mumbai

Aug 2016- Jul 2018

- Led West India regional project delivery and managed portfolio of 15+ parallel IT infrastructure programs with full lifecycle accountability.
- Implemented robust project governance and risk management frameworks, enhancing execution control, issue resolution, and escalation efficiency.
- Achieved 100% on-time project delivery across multiple high-impact initiatives
- Collaborated with CxO and senior leadership to ensure alignment with strategic priorities and delivery commitments, consistently achieving 100% on-time execution.
- Contributed on Enhancing product quality through cross-functional collaboration with Product and QA teams

Senior Consultant

Capgemini India Pvt. Ltd, Mumbai

Aug 2007- Aug 2016

Current Team Size: 30

Provided technical consulting and solution governance, aligning IT initiatives with business strategy, cost optimization, and enterprise architecture standards

- Rolled out enterprise-wide IT infrastructure programs including Exchange migrations, SCCM global deployments, datacenter virtualization, and Blackbox infrastructure rollouts, managing end-to-end lifecycle (solution design, build, migration, and stabilization)

- Delivered high-value transformation initiatives such as Exchange Org Consolidation (€620K), Exchange 2013 Migration with DAG/HA (€587K), SCCM 2012 Global Deployment (€925K), and Datacenter Virtualization (€750K) across multi-region environments
- Implemented Messaging-as-a-Service (MaaS) and Infrastructure-as-a-Service (IaaS) platforms, enabling standardized, scalable, and resilient service delivery models
- Led solution architecture alignment and technical design, translating business requirements into infrastructure blueprints covering Active Directory, Exchange, SCCM, virtualization (VMware), and network components
- Designed and governed ITIL-based service management frameworks (Incident, Problem, Change, Release), improving operational stability, SLA compliance, and service maturity
- Delivered identity and messaging solutions including Active Directory (multi-domain), ADFS (SSO/federation), Exchange HA/DR configurations, and SMTP routing optimization
- Implemented endpoint management architecture using SCCM, enabling automated patching, OS deployment, software distribution, and compliance tracking
- Led datacenter consolidation and virtualization programs using VMware, including P2V migrations, capacity planning, and DR readiness improvements
- Provided technical consulting and solution governance, aligning IT initiatives with business strategy, cost optimization, and enterprise architecture standards

PREVIOUS EXPERIENCE

Site In-charge

Wipro Infotech Limited, Mumbai

Mar 2005- Aug 2007

ITES Engineer

Anmol Computer, Mumbai

Nov 2004- Mar 2005

Customer Support Engineer

ITSource India Tech Pvt. Ltd, Mumbai

Dec 2002- Nov 2004

KEY PROJECTS (HIGH-VALUE TRANSFORMATIONS)

- **Datacenter Migration:** 3500+ servers, 260+ applications (Banking environment)
- **Domain Consolidation:** Consolidating 32 → 3 Active Directory domains
- **Exchange Migration & Consolidation:** Messaging as A Service €620K+ programs
- **SCCM Global Deployment:** Endpoint management across enterprise (€925K)
- **Datacenter Virtualization & Consolidation:** €750K
- **Blackbox Deployment:** Virtualizing 400+ different locations (€800K)
- **Active Directory Federation (ADFS):** Secure SSO implementation
- **Microsoft Lync PoC:** Enterprise collaboration evaluation

KEY ACHIEVEMENTS

- **DH Employee of Month Award** (UBS, Oct 2024) – For Automation in business process
- **Fire Fighter** (Capgemini, Sep 2014) – For recovering derailed project and finishing it 3 months ahead of schedule
- **Project Star** (Capgemini, Jun 2013) – For achieving higher OTACE rate 4.5/5, with high customer satisfaction rating

EDUCATION

Bachelor of Engineering | Electronics Engineering | University of Mumbai, 2004
