- SWIFT MT54x/299/599/103/202/210 • CTM • Client Reporting • R2R • Advanced Excel • SQL

Professional Experience

BNY Mellon | Senior Process Associate – Fund Accounting (Sep 2017 – Jan 2024)

- Performed daily NAV calculation and validation by reviewing trades, security pricing, Corporate Actions, cash & position reconciliations, and capital activities prior to NAV release.
- Processed subscriptions, redemptions, capital injections/withdrawals, journal entries, management fees, custody fees, transaction fees, and credit interest for multiple investment funds.
- Booked and validated investment transactions within the fund accounting platform, ensuring accurate downstream processing and timely NAV delivery.
- Processed Corporate Action events and validated security prices, coupon accruals, and market data using Bloomberg Terminal.
- Updated investment portfolios in Bloomberg to validate coupon payments, income events, and Corporate Action activities.
- Performed Cash & Position Reconciliation using SmartStream TLM, investigated reconciliation breaks, and ensured timely resolution by coordinating with internal stakeholders.
- Executed daily cash, stock, and asset reconciliations to maintain portfolio accuracy and ensure completeness of fund accounting records.

- Reviewed pricing exceptions, valuation discrepancies, and accounting breaks, working closely with Custody, Pricing, and Operations teams to resolve issues before NAV release.
- Collaborated with Trade, Settlement, Fixed Income, Swap, Bank Loan, Corporate Actions, Central Administration, and Client Service teams to resolve operational queries and support seamless daily fund operations.
- Managed portfolio accounting activities covering Trade Processing, pricing validation, reconciliations, capital activity, and income processing, ensuring adherence to operational controls and SLA timelines.
- Supported month-end close activities by preparing journal entries, accruals, reconciliations, variance analysis, prepayments, and audit support documentation.
- Prepared client reports, MIS reports, Standard Operating Procedures (SOPs), and trained new team members on fund accounting processes and operational best practices.

BNP Paribas Securities Services | Associate (Mar 2015 – Sep 2017)

- Managed end-to-end trade matching, trade processing, and securities settlement activities across Equities, Bonds, MBS, ABS, Foreign Exchange, and Money Market instruments.
- Performed CTM, SWIFT, and manual trade confirmations, ensuring timely trade affirmation within market cut-off timelines.
- Prepared SWIFT MT54x, MT299, MT599, MT103, MT202, and MT210 settlement instructions, including SSI amendments, funding instructions, and partial settlements.
- Ensured timely FX and securities matching, maintaining compliance with SLA, operational controls, and market deadlines.
- Executed cash and stock reconciliations, investigated reconciliation breaks, and resolved settlement exceptions through coordination with brokers, custodians, counterparties, and clients.
- Managed settlement fails, followed escalation procedures, and ensured timely resolution of operational issues.
- Supported UAT, process improvements, operational reporting, and created process documentation to improve efficiency and reduce manual intervention.
- Coordinated with internal stakeholders and technology teams to support system enhancements while ensuring error-free deliverables and audit compliance.

Achievements

- Received Spot Award for Better Client Services and successfully managing high transaction volumes across multiple operational processes.
- Recognized as part of the Team of the Quarter Award (2016).
- Achieved 100% process accuracy, receiving appreciation and recognition from clients and senior management.

- Trained new team members by providing end-to-end process knowledge and preparing standard operating procedures.
