Regulatory Reporting & Compliance Management	Process Transformation & Operational Excellence	Change Management & Strategic Initiatives
Platform Migration, UAT & Implementation	Stakeholder Relationship Management	Team Leadership & Capability Development
Performance Management, KPI & SLA Governance	Business Process Re-engineering & Automation	Management Reporting & Business Analytics

Key Achievements & Recognitions

- ❖ Received **Global Recognition Award at Barclays** for showcasing exceptional collaboration, leadership, and commitment to organizational values.
- ❖ Earned recognition from **Barclays Onshore Confirmation Team** for delivering operational excellence and maintaining high service standards.
- ❖ Recognized by **Middle Office teams at Barclays across EMEA & New York** for outstanding performance, stakeholder partnership & execution excellence.
- ❖ Commended by **Rates Middle Office at Barclays** for managing time-critical iBoxx trade confirmations & complying with stringent regulatory deadlines.
- ❖ Awarded the **Spot Award twice at eClerx** for exceptional performance, process ownership, and consistent delivery of business objectives.
- ❖ Received appreciation from business desks and regional stakeholders at **Nomura** for implementing process improvements and automation initiatives that enhanced operational efficiency and controls.

Work Experience

Barclays Global Service Centre Private Limited | Pune | Assistant Vice President | Oct 2018 – May 2026

- ❖ Directed OTC Derivatives confirmation operations across Credit Derivatives, FX Options, and Money Market products, ensuring timely execution, control adherence, and service delivery across global counterparties.
- ❖ Led a strategic industry-wide migration from DTCC to TradeServ, owning UAT execution, business validation, and implementation readiness to ensure seamless transition with no disruption to BAU operations.
- ❖ Identified and implemented automation opportunities that enhanced Straight-Through Processing (STP), reduced manual touchpoints, and delivered measurable productivity gains across the function.
- ❖ Managed a team of 4 professionals, driving performance management, workload allocation, knowledge transfer, and capability development within a high-volume operational environment.
- ❖ Owned critical Risk & Control reporting & EMIR/CFTC regulatory submissions, maintaining a control framework & achieving zero audit observations.
- ❖ Partnered with Front Office, Middle Office, Technology, Compliance, and external counterparties to support New Product Approval (NAPA) initiatives and operational change implementation.
- ❖ Established KPI and KRI monitoring frameworks, leveraging trend analysis and root cause investigations to reduce operational exceptions and strengthen process controls.
- ❖ Acted as key escalation point for complex trade confirmation issues, ensuring timely resolution and mitigation of operational and regulatory risks.
- ❖ Supported workforce planning activities including capacity assessment, resource allocation, leave management, and workload balancing to ensure uninterrupted operational coverage.
- ❖ Participated in hiring, onboarding, and performance evaluation processes, contributing to the development and retention of operational talent.
- ❖ Coordinated Business Continuity Planning (BCP) and contingency preparedness activities, ensuring operational resilience and adherence to organizational requirements.
- ❖ Represented the function in governance forums, control reviews, and stakeholder meetings, providing updates on operational performance, key risks, and ongoing initiatives.

- ❖ Managed end-to-end confirmation processing for OTC derivative transactions across DTCC and ICE platforms, ensuring regulatory compliance and timely risk mitigation.
- ❖ Designed and implemented an exception management solution that streamlined daily operations, improved processing efficiency, and strengthened operational oversight.
- ❖ Delivered system enhancements within the Phoenix Risk Platform by configuring consent-only and four-way novation trade rules, eliminating manual intervention and improving processing accuracy.
- ❖ Played a key role in new entity onboarding and business change initiatives, executing UAT activities and configuring trade routing structures to support seamless DTCC connectivity.
- ❖ Collaborated with Front Office and Risk teams on ICE Compression and TriOptima cycles, supporting portfolio optimization and reduction of counterparty exposure.
- ❖ Produced management and regulatory reporting including KRI metrics, Fed statistics, and EMIR/CFTC submissions to support governance and management decision-making.
- ❖ Supported transition and knowledge transfer activities for new processes and business requirements, ensuring smooth integration into existing operating procedures.
- ❖ Contributed to the documentation and maintenance of Standard Operating Procedures (SOPs), process maps, and control documentation to support operational consistency.
- ❖ Participated in periodic control testing & process reviews to identify opportunities for strengthening operational effectiveness & compliance standards.
- ❖ Assisted in training & mentoring new team members, facilitating faster ramp-up & improved understanding of operational workflow and controls.

ECLERX Services Private Limited | Pune | Financial Analyst | Aug 2015 – Apr 2017

eClerx

- ❖ Supported OTC confirmation operations for global financial institutions, ensuring trade affirmation and confirmation activities were completed within FED Target T+1 requirements.
- ❖ Investigated trade discrepancies and confirmation breaks, partnering with clients and counterparties to achieve timely resolution and reduce operational risk.
- ❖ Analyzed processing failures & workflow bottlenecks, contributing to improvements in Straight-Through Processing rates & overall process efficiency.
- ❖ Developed client-specific operational reports and MIS dashboards to enhance visibility, exception management, and service delivery.

Trust Systems And Software Private Limited | Nagpur | Implementation Executive | Jan 2012 – Apr 2013

- ❖ Implemented and supported banking technology solutions for institutional clients, providing deployment support, issue resolution, and post-implementation assistance.
- ❖ Utilized SQL to investigate and resolve data-related issues, ensuring data integrity and system reliability.
- ❖ Supported financial reconciliation & reporting activities, including Trial Balance & Balance Sheet validation, to ensure accuracy of financial records.

Key Projects

- ❖ **TradeServ Migration Program | Barclays:** Led User Acceptance Testing (UAT) for the industry-wide migration from DTCC to TradeServ, driving business validation, process readiness, and successful implementation of the new confirmation platform across OTC product workflows.
- ❖ **New Entity Setup & Operational Readiness | Barclays:** Played a key role in establishing operational infrastructure for a new legal entity, coordinating with multiple business functions to ensure regulatory compliance, process readiness, and seamless integration into existing operating frameworks.
- ❖ **Phoenix Risk System Enhancement | Nomura:** Designed and implemented rule-based enhancements within the Phoenix Risk System for consent-only and four-way novation trades, eliminating manual DTCC processing, strengthening operational controls, and improving processing efficiency.

Technical Skills

- ❖ **Capital Markets Platforms:** DTCC, TradeServ, ICE
- ❖ **Risk & Operations Systems:** Phoenix (Risk System)
- ❖ **Testing & Change Management:** UAT Testing, Platform Migration, New Entity Implementation
- ❖ **Regulatory Reporting:** EMIR Reporting, CFTC Reporting
