10/07/1992 Immediate Joiner

Senior Business Analyst with 7+ years of experience delivering enterprise-scale digital transformation initiatives across **Banking, Payments, FinTech, Lending, API Platforms, and Regulatory Compliance**. Successfully led the implementation of **India's Retail & Wholesale CBDC rollout across 18+ banks**, RBI Samadhan, HDFC Bank Developer Portal, Loan Origination System (LOS), and Loan Management System (LMS). Proven track record of translating complex business requirements into **BRDs, FRDs, Functional Specifications, User Stories, Acceptance Criteria, AS-IS/TO-BE process models, and BPMN workflows**, enabling successful solution delivery. Drove business process optimization, REST API integrations, UAT management, release planning, and Agile delivery, resulting in improved operational efficiency, enhanced customer experience, and reduced implementation risks. Adept at collaborating with regulators, business stakeholders, architects, developers, QA, and cross-functional teams to deliver secure, scalable, and regulatory-compliant solutions while accelerating digital transformation initiatives.

🛠 Skills

Certifications

- Certified Business Analyst
- Scrum Fundamentals
- Pursuing PMP

Tools

- Jira
- Confluence
- SharePoint
- Trello
- MS Office Suite
- Draw.io
- Visio

Technical Knowledge

- REST APIs
- JSON, XML
- ServiceNow
- PHP
- AWS Cloud.

Business Analysis

- Requirements Elicitation
- Stakeholder Management
- Process Improvement
- Gap Analysis
- SWOT Analysis
- Impact Analysis
- Data Analysis
- Data Migration & Integration

Documentation

- BRD
- FRD
- User Stories
- Use Cases
- Process Flows
- Project Plans
- Gantt Charts
- WBS
- Risk & Change Management Documentation

Project Delivery

- Agile (Scrum, Kanban)
- Waterfall
- Backlog Management
- Change Management
- Resource Planning
- Risk Management
- Scope Management
- Team Leadership

Wireframing & Modelling

- Axure
- Balsamiq
- Draw.io

- Mock-ups and Process Mapping

🏢 WORK EXPERIENCE

National Payments Corporation of India (NPCI)

03/2025 – 07/2026 | Mumbai

Sr. Business Analyst

Project Name- Retail CBDC, Wholesale CBDC, RBI Samadhan.

- Gathered and documented business requirements into **BRDs, FRDs, User Stories, Acceptance Criteria, and Process Flows** for Corporate Banking and Payment solutions.
- Analyzed and optimized **Cash Management** processes, including **SWIFT payments, domestic payments, collections, reconciliation, settlement, liquidity, and transaction lifecycle management**.
- Defined **business rules, workflow logic, REST API integration requirements, and exception handling** for banking and payment platforms.
- Collaborated with business stakeholders, product owners, architects, developers, QA teams, and banking partners to deliver enterprise payment solutions.
- Conducted **requirement workshops, stakeholder interviews, gap analysis, impact analysis, and AS-IS/TO-BE process modeling**.
- Managed **UAT**, prepared test scenarios, validated payment workflows, and coordinated defect resolution for successful production releases.
- Performed **Root Cause Analysis (RCA)**, production support, and incident management to ensure system stability and business continuity.
- Supported **Agile/Scrum** delivery by refining user stories, prioritizing backlogs, and defining acceptance criteria.
- Contributed to **Corporate Banking and Cash Management transformation**, supporting **SWIFT, STP, payment modernization, reconciliation, settlement, and digital banking initiatives**.

Business Analyst**Project Name- HDFC Developer Portal**

- Contributed to the implementation of **Corporate Banking** solutions, enabling **SWIFT payment processing**, cross-border payments, and secure financial messaging.
- Designed **end-to-end SWIFT payment workflows** covering payment initiation, **MT/MX message processing**, validation, sanctions screening, reconciliation, and settlement.
- Prepared **BRDs, FRDs, User Stories, Acceptance Criteria, Process Flows**, and Functional Specifications, ensuring clear requirements and timely delivery.
- Streamlined **corporate client onboarding**, SWIFT connectivity, beneficiary management, and payment authorization workflows to improve operational efficiency.
- Supported integration with **SWIFT Network, Core Banking Systems, REST APIs, ISO 20022, OAuth 2.0, API Security, and JWT authentication**.
- Performed **AS-IS/TO-BE analysis**, collaborated with business and technology teams, and supported **UAT, SIT, production releases, and defect management** in an Agile (Scrum) environment.
- Worked with **Compliance, Risk, AML, and Sanctions Screening** teams to ensure regulatory compliance and improve **Straight-Through Processing (STP)** and payment turnaround time (TAT).

Rego Digital Solutions

02/2021 – 12/2023 | Bangalore

Business Analyst**Project Name- GLOW (Loan Sourcing) and Trucell (Collections) applications**

- Produced comprehensive **Business Requirement Documents (BRDs), Functional Requirement Documents (FRDs), User Stories, Functional Specifications, and Acceptance Criteria**, enabling accurate solution design and successful implementation of corporate banking and payment solutions.
- Led business analysis for **Corporate Banking, SWIFT Payments, and Cross-Border Payment** initiatives, translating business requirements into detailed functional specifications and process flows.
- Performed **requirements elicitation, stakeholder workshops, AS-IS/TO-BE analysis, process mapping, and gap analysis** to optimize corporate payment processing, trade finance, and cash management workflows.
- Collaborated with business stakeholders, operations, compliance, QA, and development teams to deliver enhancements across **SWIFT MT/MX messaging, cross-border payments, RTGS, NEFT, and corporate payment platforms** using Agile methodologies.
- Defined and validated business rules for **SWIFT payment lifecycle**, including payment initiation, message validation, authorization, routing, settlement, reconciliation, exception handling, and repair processes.
- Managed **User Acceptance Testing (UAT), defect triage, production releases, and Go-Live support**, ensuring high-quality deployments with minimal business disruption.
- Improved operational efficiency by optimizing **payment processing, reconciliation, exception management, and straight-through processing (STP)**, reducing turnaround time and improving transaction accuracy.
- Developed **MIS reports, operational dashboards, and business insights** to monitor payment volumes, transaction status, reconciliation, operational KPIs, and regulatory reporting.
- Successfully delivered end-to-end implementations for **Corporate Banking Payment Systems, SWIFT Integration, Cash Management, and Cross-Border Payment Solutions**, ensuring timely delivery and stakeholder satisfaction.
- Worked closely with compliance teams to ensure adherence to **SWIFT standards (MT/MX), ISO 20022, AML, Sanctions Screening, FATF, RBI, and international payment regulations**, maintaining regulatory compliance across payment operations.
- Supported continuous process improvement initiatives by identifying automation opportunities, reducing manual interventions, enhancing payment processing efficiency, and improving customer experience.

The Four Walls Properties

01/2016 – 11/2018 | Pune

Project Co-Ordinator/ Business Analyst

- Spearheaded end-to-end business analysis by translating Corporate Banking and SWIFT payment requirements into BRDs, FRDs, user stories, acceptance criteria, and process flows.
- Defined and optimized corporate payment workflows, including SWIFT MT/MX messaging, payment initiation, authorization, settlement, and reconciliation processes.
- Performed AS-IS/TO-BE analysis, gap assessments, and process improvements to enhance operational efficiency and reduce manual interventions.
- Collaborated with business stakeholders, operations, compliance, and technology teams to gather requirements and deliver banking solutions aligned with business objectives.
- Facilitated Agile ceremonies, backlog refinement, sprint planning, and stakeholder workshops to ensure timely delivery of high-priority initiatives.
- Led UAT, defect management, release validation, and production support, ensuring high-quality deployments and seamless business operations.
- Ensured compliance with SWIFT standards, regulatory requirements, AML/KYC, and internal banking governance throughout the solution lifecycle.
- Created process models, workflow diagrams, and functional documentation using BPMN, Visio, and [Draw.io](#) to support solution design and stakeholder communication.
- Served as the key liaison between business and technology teams, ensuring accurate requirement translation and successful project delivery.

EDUCATION HISTORY**Dr.D.Y. Patil international University**

02/2018 – 08/2020 | Pune

Master of Business Administration

Marketing
