PROFESSIONAL SUMMARY

Dynamic **Technical Manager** with 20+ years of IT experience and over 14 years leading large-scale **Genesys Cloud CX & Genesys Engage** solutions, platform migrations, and mission-critical operations. Adept at managing **cross-functional engineering teams**, driving **cloud transformation**, implementing **AI automation**, and ensuring seamless delivery for global BFSI and telecom enterprises. Recognized for technical leadership, stakeholder management, and delivering high-performing, scalable, resilient contact centre ecosystems.

CORE LEADERSHIP & TECHNICAL SKILLS

Technical & Delivery Leadership

- Technical Team Leadership & Mentoring
- Program/Project Delivery Management
- Vendor & Partner Management
- Risk, Issue & Change Governance
- Sprint Planning, Agile Delivery, Release Management

Technology Expertise

- Genesys Cloud CX, Genesys Engage, SIP, Routing
 - AWS Cloud Migrations (Engage on AWS)
 - Conversational AI: Voicebots, Chatbots, Agent Copilot
 - Network, VoIP & UC (Cisco, Avaya, AudioCodes)
 - Workflow Automation, REST APIs, Integrations
 - Infrastructure Readiness (VMware, Network, Security)
-

PROFESSIONAL EXPERIENCE

Technical Manager / Solution Architect – Contact Centre Platforms

Tata Consultancy Services Ltd | Bangalore | 2024 – Present

- Leading end-to-end delivery of **Genesys Cloud CX & Engage** transformation programs.
- Managing architects, engineers, and operations teams across multiple workstreams.

- Overseeing AI automation delivery including **voicebots, chatbots, Agent Copilot**, and knowledge-base systems.
- Establishing delivery governance: backlog prioritization, release planning, RACI frameworks.
- Coordinating with enterprise cloud, network, cyber security, and business owners to ensure compliance and stability.
- Driving API-led integrations with CRM, ticketing and enterprise systems.

Key Impact: Improved delivery predictability and reduced rework by establishing structured technical governance.

Technical Lead / Scrum Master – Genesys Cloud Migration Program

Tata Consultancy Services Ltd | 2019 – 2024

- Led multi-year transformation to migrate large-scale BFSI contact centre workloads to **Genesys Engage on AWS Cloud**.
- Orchestrated infrastructure readiness across networking, routing, telephony, and security domains.
- Managed cross-functional squads and vendor partners; ensured delivery alignment with architectural principles.
- Drove sprint governance, capacity planning, and dependency management.
- Conducted risk assessments, built mitigation plans, and ensured high platform availability.

Key Impact: Delivered a complex cloud migration program with zero customer-impacting outages.

Technical Lead – Contact Centre Operations & Enhancements

Tata Consultancy Services Ltd | Sydney | 2016 – 2019

- Managed operations, lifecycle management, upgrade cycles, and capacity planning for enterprise Genesys platforms.
- Directed monitoring improvements, patching frameworks, and infrastructure modernization.
- Led incident management, RCA, and cross-team issue resolution.
- Coordinated with WFM, recording (Verint), and downstream ecosystem teams.

Key Impact: Reduced service incidents by 25% through automation and proactive monitoring.

Senior Communications Engineer – Genesys & Unified Communications

Tata Consultancy Services Ltd | Bangalore | 2010 – 2016

- Delivered enterprise contact center implementations using **Genesys, Cisco Collaboration, SIP, ESBC**.

- Authored HLD/LLD documents, executed POCs, and validated end-to-end call flows.
 - Supported multi-platform UC/Contact Centre ecosystems and enterprise integrations.
-

Telecom Engineer – VoIP & UC Systems

CSS Corp and others | Bangalore | 2002 – 2010

- Managed Unified Communications and VoIP implementations (Cisco, Nortel, Alcatel-Lucent).
 - Supported large enterprise voice systems, EPABX, LAN/WAN environments.
-

EDUCATION

- Bachelor of Business Administration (BBA)
 - Diploma in Electronics & Communication Engineering
-

CERTIFICATIONS

Genesys Cloud CX • Genesys Engage Routing • AWS Solutions Architect – Associate • ITIL Foundation
• PSPO-II • Google Cloud Digital Leader • CCNP Voice • CCNA Data & Voice • Conversational AI

KEY ACHIEVEMENTS

- Delivered AI automation initiatives reducing **AHT by 20%** and improving agent productivity.
- Improved platform reliability by **30%** through lifecycle and security modernization.
- Implemented voice/chat bots that increased **containment rate by 35%**.
- Successfully executed multi-year **Genesys Engage on AWS migration** for a major BFSI client.
