SUMMARY

Certified Lean Six Sigma Black Belt and end-to-end solution architect with an MBA & M.Sc. in Data Analytics, bringing 12+ years' cross-industry experience across telecom/ISP, BFSI, retail, manufacturing, and education. Design transformation strategies that go beyond point automations to deliver full operating models - pairing technology with the ownership, governance, and customer experience needed to sustain the change. Combines Lean discipline with forward-looking AI and automation thinking to build closed-loop solutions where every rollout has a defined owner, feedback mechanism, and escalation path - creating durable value for both the business and its customers. Builds the KPIs, dashboards, early warning systems, and governance frameworks that turn data into decisions, grounded in Lean Six Sigma, ITIL, and Agile methodologies.

SKILLS

Technical & Analytical: R (Primary), SAS, Python, SQL, Power BI, UiPath, Power Automate, Blue Prism, SAP Signavio, MS Visio, statistical modelling, hypothesis testing, data-driven decision-making

Data Expertise: HILDA, PISA; large-scale data analysis, qualitative & quantitative methods, ETL, insight generation, data validation, data mining

Process Excellence: Lean Six Sigma (Black Belt), RCA, FMEA, Risk Analysis, Cost & Benefits Analysis, Value Stream Mapping, Process Mapping, Continuous Improvement, Kaizen, Customer Journey Mapping, SOP Development, Process Standardisation

Frameworks & Tools: ITIL, Design Thinking, BPR, Porter's 5 Forces, PESTLE, SWOT, RPA (Appian, Blue Prism, Kofax), OCR, JIRA, Confluence

Business & Project Skills: Stakeholder Management, Management Consulting, Digital Transformation, Customer Lifecycle, Performance Reporting

WORK EXPERIENCE

Shyam Spectra Pvt Ltd

Gurugram, India

Process Excellence Manager - Digital & Operational Excellence

12/2025 – Present

- Building an **automation portfolio across high-frequency, high-impact operations** using **UiPath** (e.g. CRM cancellation SR workflow) and **Power Automate** (installation audits, email-to-bin routing, customer and internal response loops), authoring the **business and benefit case, solution design, and pre/post-deployment analysis**, with governance and ownership embedded in every rollout
- Designed and delivered an end-to-end WhatsApp Admin Support journey** for Coliving and Profi Office, initial wave serving **500+ Coliving site admins** through **20+ automated intelligent checks**, collapsing intake time from **~50 minutes to ~3 minutes (~94%)**, engineered with the full closed-loop operating model: **post-resolution feedback, CRM escalation, action-on-feedback workflow, and customer-outreach ownership** built in
- Leading the rollout of a vendor-led GCP / BigQuery analytics platform** spanning **10+ source systems and multiple Power BI domains**, running **KPI-definition workshops with business departments**, aligning **cross-functional teams and source systems**, and **initiating ETL ingestion pipelines** to operationalise the platform under the D&OE data governance framework
- Leading a **DFSS (DMADV) initiative to design the governance, control layer, and KPI hierarchy** around a business-led Account Management programme – building the current-state architecture (**L2/L3 process maps, SIPOC, RACI, and role guardrails**) and quantifying **₹1.53 Cr** in annual churn exposure, targeting a **~50% reduction in avoidable churn (₹76.3 Lac MRC protected)** with no new headcount
- Designing an **AI-augmented meeting-intelligence workflow (Microsoft Teams + Power Automate + LLM + ClickUp)** to auto-analyse daily RAM/IAM sales reviews, dispatch structured feedback, and track action items across **300+ meetings/month** – eliminating **~25 hrs/month** of manual effort while scaling from 14 to 40 meetings/day

The University of Newcastle

Newcastle, Australia

Business Intelligence Officer (Contract Role)

01/2024 – 01/2025

- Embedded **risk and compliance controls** into BI analytics pipelines and revamped data insights request workflows in alignment with **ITIL** and BI governance standards, improving dashboard and report accuracy
- Streamlined cross-functional **BI request workflows** through stakeholder consultation, improving **productivity by 30%** and accelerating **requirement-gathering time by 67%**
- Reviewed core operational processes and surfaced **five critical focus areas** with actionable recommendations to strengthen reporting accuracy and decision-making

Fidelity International

Gurugram, India

Sr. Consultant / Manager - Process Excellence & Digital Transformation

04/2021 – 01/2023

- Led enterprise-wide transformation programs, consulting across **global client services**, onboarding, and compliance to identify high-impact process gaps and align cross-functional solutions

- Delivered the **Digital ID Verification** transformation project - cutting **client onboarding time by 50%**, improving customer satisfaction by **40%**, reducing customer risk by **74%**, and realising **\$273K in annual cost savings** through advanced automation, OCR, and workflow redesign
- Executed Lean Six Sigma optimisation of the **UK Client Relations Email Process**, streamlining workflows, eliminating delays, and unlocking **5.3 FTE in capacity**
- Designed and launched **Minimum Viable Products (MVPs)** within Agile sprint cycles, enabling faster iteration and stakeholder alignment on scalable process enhancements
- Automated complex manual workflows using **RPA tools (Appian, KOFAX, Blue Prism, Olympus)**, improving efficiency by **67%** and reducing errors in NIGO case handling
- Acted as an internal consultant and **Lean Six Sigma coach**, managing a team of 5 consultants and embedding a culture of continuous improvement across cross-functional teams

Jaquar

Assistant Manager — Business Process Management

Manesar, India

12/2018 – 04/2021

- Automated end-to-end inbound–outbound inventory workflows in **Oracle Fusion Cloud**, resulting in a **40% reduction in operational waste**
- Documented **L3–L4 processes (MS-Visio)** and modelled **Business Continuity Plans (BCPs)** to support audit readiness and risk mitigation, standardising supply chain P2P and B2C operations

GlobalLogic

Lead — Transition Engineering

Gurgaon, India

09/2016 – 12/2018

- Ensured **data privacy and security** for Google Inc.'s machine-learning projects through robust access management and data preparation for predictive modelling classifiers
- Coached a team of **30 Data Analysts**, achieving consistent project delivery within deadlines via interactive performance dashboards tracking daily, weekly, and monthly intervals
- Streamlined knowledge transfer, training, and operational handover workflows, resulting in a **25% reduction in analyst stabilisation time**

Koovs.com

Assistant Manager — Business Excellence

Gurgaon, India

08/2014 – 09/2016

- Led end-to-end optimisation of **e-commerce supply chain operations** (order fulfilment, returns, last-mile), reducing **SLA breaches by 35%**
- Streamlined warehouse and vendor SOPs, improving **inventory accuracy** and cross-functional accountability
- Optimised vendor performance evaluation criteria, enabling better supplier decisions and achieving **35% OPEX reduction** and **\$49K annual savings**

Koenig Solutions

Project Management Corporate Trainer

New Delhi, India

04/2013 – 07/2014

- Designed and delivered **Six Sigma, ITIL, and Business Analysis** training programmes for corporate clients, aligned to business and continuous-improvement goals
- Applied **DMAIC** with hypothesis-based problem solving to reduce **AHT in a client's call process by 10%**, saving **\$171,088 annually** in revenue leakage

Jindal Steel & Power

Project & Marketing Coordinator

Gurgaon, India

11/2011 – 03/2013

- Executed **Project Feasibility Studies (PFS)** and analysed RFPs to assess viability, costs, and timelines
- Increased project approvals by **25%** by collaborating with stakeholders for final management sign-off

EDUCATION

The University of Newcastle

Dual Master's — M.Sc. Data Analytics (Major) & MBA (Global) | GPA 6.65/7.0 (High Distinction)

NSW, Australia

01/2023 – 12/2024

Amity University

Bachelor of Engineering — Aerospace Engineering | GPA 6.7/9.0

Noida, India

07/2007 – 07/2011

CERTIFICATIONS

- **Lean Six Sigma Black Belt** — Motorola Learning Solutions, USA | 08/2015
- **Six Sigma Green Belt** — British Standards Institution (BSI) | 07/2012
- **ITIL V3 Foundation** — AXELOS Global Best Practice | 05/2014

KEY ACHIEVEMENTS

- **Dean's Commendation List** - Newcastle Business School (Aug 2024) for over **85% High Distinctions** in master's coursework
- **EQUIS Student Committee Panel Member** - contributed to the **EFMD Quality Improvement System re-accreditation** of Newcastle Business School (Apr–Dec 2024)
- **Overall Performance Excellence Award** - for exceptional service delivery on **Google gTech** machine-learning projects (Oct 2017)
