Process Governance | Operational Risk & Controls | Middle Office Operations

Mobile: +91 9167550460 / 9167550459 | Email: yashsweyc@gmail.com

PROFESSIONAL SUMMARY

Operations and Governance professional with 10+ years of experience in global investment banking, specialising in end-to-end process governance, operational risk and control frameworks, and cross-functional business transformation. Proven track record owning governance artefacts (SOPs, RACIs, process maps), leading root cause analysis and incident management, and driving sustainable corrective actions. Skilled in managing issue and action logs to closure, and delivering MI/KPIs to senior leadership. Experienced in partnering with Risk, Compliance, Technology, and Audit teams to embed regulatory requirements into governance frameworks across EMEA, US, and APAC. Delivery-oriented with strong stakeholder management, attention to detail, and a demonstrated ability to drive process standardisation, simplification, and measurable operational improvements under tight deadlines.

KEY ACHIEVEMENTS

Operational Migration & Process Governance Framework: Led migration of EMEA middle office functions from London to Bangalore; designed and implemented a new governance and risk management framework — including process documentation, escalation paths, and control standards — reducing operational risk by 12%.

Issue & Action Management / Control Gap Remediation: Drove ~3% month-on-month reduction in trade mismatches/breaks across ~17,000 monthly trades through root cause analysis, and targeted process improvements.

Governance MI & Operational Health Reporting: Built and maintained critical KPI/KRI dashboards and performance reports for senior management, enabling data-driven governance decisions and a 65% reduction in confirmation delays.

Business Continuity Planning & Implementation: Led BCP coordination with the Central Risk Management Team across EMEA, US, and APAC functions, ensuring end-to-end continuity coverage for critical trade operations and governance processes with no breaches to service levels

PROFESSIONAL EXPERIENCE

Senior Associate | Goldman Sachs | Bangalore

Jan 2022 – Feb 2026

Securities Operations – Interest Rate Derivatives – Trading Middle Office

- Designed, monitored, and strengthened operational controls to reduce risk and improve control effectiveness; drove measurable ~3% month-on-month reduction in trade mismatches across ~17,000 monthly trades.
- Contributed to the Risk and Control Self-Assessment (RCSA) process by providing input to the Risk team on control effectiveness, identifying operational risk indicators, and ensuring front-to-back process controls were accurately represented in the firm's risk framework
- Led root cause analysis (RCA) for operational incidents and exceptions; captured lessons learned and drove sustainable corrective and preventive actions to closure
- Ensured adherence to regulatory requirements (Mandatory Clearing, SEF execution); partnered with Risk and Compliance to embed regulatory and conduct expectations into operational governance
- Provided governance MI and performance insights to senior leadership, enabling proactive risk identification and continuous improvement in execution quality.
- Supported business continuity planning and implementation in coordination with the Central Risk Management Team; ensured governance artefacts remained current and audit-ready
- Owned end-to-end process governance framework across global Interest Rate Derivatives trading operations, including process documentation, RACI, escalation paths, and control inventory across EMEA

Associate | Goldman Sachs | Bangalore
Securities Operations – Interest Rate Derivatives Confirmation

Nov 2019 – Dec 2021

- Served as Subject Matter Expert (SME) in the end-to-end automation of the broker-trader reconciliation process; collaborated with Technology teams to design and implement an automated reconciliation tool for same-day broker trade bookings, driving a ~65% reduction in reconciliation processing time, eliminating manual touchpoints and significantly lowering operational risk
- Led issue triage and action management for economic and legal discrepancies in Interest rate derivatives trades, conducting structured RCA and driving process improvements that resulted in a 65% reduction in confirmation delays.
- Produced KPI/KRI dashboards and operational health reports for senior management to support governance decisions and track remediation progress.

Senior Analyst | HSBC | Bangalore
Pricing, Global Banking and Markets

Sep 2015 – Oct 2019

- To centralize the market data source at one point i.e. creating a golden source across different regions. Aimed at upgrading current methodology for price update across different systems i.e. Summit, Calypso, and Murex, thus reducing redundancy with improved efficiency and transparency
- Working as Business analyst for Trade operation, Reference data to ensure trade quality is maintained/improved and errors are eliminated
- Managing risk by constantly liaising with trading desk and product control for resolving issues related to daily market price upload
- Exception clearing of the trade wherein right broker prices not available for the product and highlighting the trade to product control team for correct broker source
- Daily/weekly reporting of the volumes and exception handling, working on monthly dashboards for senior management updates
- Analysing prices for various products like Swaps, FX, Futures & Bonds through State-variance reports, rates comparisons with different benchmark sources like Bloomberg, Thomson Reuters & MarkIT

Analyst (CIP) | Goldman Sachs | Bangalore
Client Implementation Management – GSAM

Mar 2015 – Jun 2015

- Supported operational efficiency by helping set up 15 new GSAM client relationships, accounts, and funds.
- Assisted in managing three fixed-income, equity, and hedge share classes, contributing to portfolio efficiency improvements.
- Participated in process reengineering to help execute operational strategies.
