

SURESH BABU S

Senior IAM Program, Project & Delivery Manager | Cloud & Cybersecurity Transformation
PMP | CISM | Certified ScrumMaster (CSM) | Agile & Scrum Delivery | Program & Portfolio Management
Bengaluru, India | +91 9600037070 | sureshbabu.chn@gmail.com | [linkedin.com/in/sureshbabusanthanaraj](https://www.linkedin.com/in/sureshbabusanthanaraj)

PROFESSIONAL SUMMARY

Senior Program, Project, and Delivery Manager with 18+ years leading enterprise Identity and Access Management (IAM), cloud, and cybersecurity transformation programs across global banking and telecommunications organizations. Proven track record managing multi-million-dollar, multi-workstream IAM and infrastructure portfolios (up to USD 5.5M) spanning 60+ countries, 95,000+ users, and matrixed teams of 25+ engineers, architects, and vendor partners.

Deep hands-on expertise in IAM platform delivery — Microsoft Entra ID, SSO/MFA, SAML 2.0/OIDC, Zero Trust, Conditional Access, and passwordless authentication — combined with Agile/Scrum delivery (Azure DevOps, Jira), PMO governance, steering committee and executive reporting, change management and benefits realization, and risk/regulatory compliance (SOX, PCI DSS, ISO 27001, NIST). Recognized for translating technical and architectural decisions into measurable business outcomes — cost optimization, delivery predictability, and risk reduction. Project Management Professional (PMP), Certified Information Security Manager (CISM), and Certified ScrumMaster (CSM) certified.

KEY ACHIEVEMENTS

- Delivered enterprise cloud, identity, and cybersecurity transformation programs representing **USD 8.7M+** in combined portfolio value across **60+ countries and 95,000+ users**.
- Realized approximately **USD 825K in cost savings** through vendor consolidation and delivery process optimization over 5 years.
- Reduced legacy authentication exceptions by **40%** and password-related support incidents by **35%** through Zero Trust and passwordless authentication initiatives.
- Closed **30+ audit observations** across SOX, PCI DSS, ISO 27001, and NIST engagements within regulatory timelines, with zero compliance escalations.

CORE COMPETENCIES

Program & Portfolio Leadership: Enterprise Program & Portfolio Management · PMO Governance & Steering Committee Reporting · Executive Reporting & Stakeholder Management · Change Management & Benefits Realization

Identity & Access Management (IAM): Identity & Access Management (IAM) Program Delivery · Microsoft Entra ID · SSO/MFA · SAML 2.0/OIDC · Zero Trust & Conditional Access · Passwordless Authentication (Windows Hello for Business) · Identity Lifecycle Management · Active Directory & Hybrid Identity

Agile Delivery & Tools: Agile & Scrum Delivery · Azure DevOps · Jira · Confluence · Sprint & Backlog Management · Certified ScrumMaster (CSM)

Architecture & Technical Leadership: Architecture Reviews & Solution Design Governance · Cloud Platform Transformation (Azure) · Enterprise Application Integration & Onboarding (1,000+ Apps)

Governance, Risk & Compliance: Program Governance · Risk & Dependency Management · SOX · PCI DSS · ISO 27001 · NIST · Audit Readiness & Remediation

Financial & Vendor Management: Program Budgeting & Forecasting · Staffing & Capacity Planning · Vendor & Contract Management

PROFESSIONAL EXPERIENCE

Career progression from hands-on network engineering into enterprise technical delivery and program leadership, with increasing scope, budget, and stakeholder accountability over 18+ years.

IAM Project Manager | Information & Cybersecurity Services | Standard Chartered Global Business Services, Bengaluru, India Jun 2020 – Present

- Lead end-to-end planning, execution, and delivery of enterprise Identity and Access Management (IAM), cloud, and cybersecurity transformation programs supporting 95,000+ employees across 60 countries; direct

integration feasibility assessments and onboarding of 1,000+ enterprise applications to Microsoft Entra ID using SAML 2.0 and OpenID Connect (OIDC).

- Own a USD 3.2M multi-workstream program portfolio, managing integrated roadmaps, budgets, forecasts, staffing, and vendor/contract resources across a matrixed team of 25+ engineers, security architects, and vendor partners.
- Drive Agile and Scrum delivery using Azure DevOps and Jira for backlog management, sprint tracking, and delivery reporting, and Confluence for program documentation and governance artifacts; serve as Interim Product Owner for an 8-member cross-functional Agile squad, sustaining 90%+ sprint completion rates.
- Serve on architecture review boards and lead solution design discussions for identity platform integrations, providing technical governance input that shaped Conditional Access and Zero Trust design decisions.
- Established PMO governance structures, steering committee reporting, change management processes, and RAID/risk tracking across engineering, cybersecurity, infrastructure, and vendor teams; serve as primary liaison to executive, security, and business stakeholders on program status and decision-making.
- Directed Conditional Access policy design aligned with Zero Trust strategy, reducing legacy authentication exceptions by 40% while maintaining 95%+ policy compliance; led the global Windows Hello for Business and passwordless authentication rollout, cutting password-related support incidents by 35% and achieving 98%+ authentication success.
- Partnered with Internal Audit, Risk, and Compliance teams to meet SOX, PCI DSS, ISO 27001, and NIST requirements, closing 30+ audit observations within agreed regulatory timelines with zero compliance escalations.

Technical Delivery Manager | Singtel Global India Pvt. Ltd., Chennai, India

Apr 2010 – Jun 2020

- Managed a USD 5.5M enterprise infrastructure and Identity and Access Management (IAM) transformation program portfolio across APAC, leading Active Directory consolidation and hybrid identity initiatives that enabled cloud adoption and SSO across a distributed team of 30+ engineers and vendor resources.
- Established PMO governance, SLA management, risk/dependency tracking, and executive reporting frameworks across 12+ cross-functional delivery teams spanning 8 APAC countries, improving delivery predictability and stakeholder visibility.
- Partnered with architecture and engineering leads on solution design and technical governance for identity and infrastructure integration projects, ensuring alignment with enterprise standards.
- Managed program budgets and led vendor consolidation and delivery process improvements, delivering USD 825K in cost savings over 5 years.
- Served as primary stakeholder liaison between application, infrastructure, and security teams, translating business requirements into technical delivery plans.

Engineering & Technology Roles | Tata Teleservices · ZTE Global India · Shivani Info Solutions, India

2006 – 2010

- Delivered telecom core network projects — routing optimization, capacity planning, and automated provisioning — improving service reliability by 28%, and developed SOPs and technical runbooks that strengthened operational readiness across network operations teams.

CERTIFICATIONS

Project Management Professional (PMP) · Certified Information Security Manager (CISM) · Certified ScrumMaster (CSM) · ITIL 4 · AWS Solutions Architect · Microsoft Azure Fundamentals (AZ-900)

EDUCATION

Bachelor of Engineering (B.E.) – Electronics & Communications Engineering, 2005
Anna University, Chennai, India

AWARDS & RECOGNITION

- **Best Performer Award, Standard Chartered (2026)** – Recognized for leading the enterprise-wide MFA and Windows Hello for Business (WHfB) deployment, delivering secure passwordless authentication to **95,000+ users** across the bank.
- **Security Champion Award, Singtel (2019)** – Recognized for outstanding contribution to enterprise security and risk management initiatives.
